Tar Heel Split End

The UNC Dental Alumni Association Invites You To Kickoff With Us!!

Join us for three exciting football Saturdays this fall.

September	12	Furman	7:00 PM
October	17	Virginia	1:30 PM
October	24	Clemson	1:30 PM

Kickoff times are tentative and subject to change based on TV scheduling. Block tickets can be ordered from the Dental Alumni Office. Block ticket order forms will be mailed this summer. The reservation deadline is August 21, 1992. Join in the fun and help us cheer on the Tar Heels! Questions? Call 919-966-4563.

DEAN'S COMMENTS

Dean John W. Stamm

Dental offices everywhere face the daily reality that the public expects to receive only the highest quality professional services. Dentistry works diligently and successfully to meet this obligation. The School of Dentistry is a key participant in this important endeavor.

Service has a long tradition in universities and is a valued mission by UNC. For two centuries the citizens of North Carolina have been visionary and generous in their support of the University. In return, a strong public service ethic evolved. In 1950 when the School of Dentistry opened, it inherited this unique service commitment. In 1992 the Dental School upholds this tradition more strongly than ever.

First and foremost, the School has educated two-thirds of the State's practicing dentists. Throughout its forty-two year history, the School has worked diligently to ensure that young men and women in North Carolina would have ready access to a superb dental education, who in turn would provide the highest quality patient care. This commitment has extended to the training of dentists, dental hygienists, dental assistants, as well as specialists in all domains of dentistry.

Second, the School continues to make a major commitment to the maintenance and elevation of dental practice standards in the State through continuing education. The AHEC system has been an important mechanism for this activity for forty years.

In the 1990-91 academic year, the School offered 141 high quality continuing education courses, reaching a total of 3,632 participants. Rather than requiring CE participants to always travel to Chapel Hill, the air transportation provided through the AHEC system has allowed us to bring courses to every corner of North Carolina. The School also has a very strong in-house CE program which served 2,864 in 1990-91.

Third, the School works with organized dentistry in the State to uphold high standards of dental care. For the State Board of Dental Examiners, the School provides the clinical setting for the annual Board examinations. Faculty periodically serve as consultants on the content, standards and preparation of examinations, as well as in the offering of programs to dentists requiring specialized remediation. For the North Carolina Dental Society, as well as district dental societies, the School has provided specialized services or consultations for projects such as the Dental Office Team Study, the mercury amalgam issue, and the newly developing program to assist impaired dental care providers.

Fourth, the School has a long history of assisting the Dental Division of the States' Department of Natural Resources, Health and Human Services in public education and prevention activities. Issues such as fluoridation, dental health surveys, manpower studies, the use of dental sealants and HIV/AIDS in dentistry have been addressed.

Fifth, the research conducted in the School and the Dental Research Center has had significant positive impact on the treatment modalities used by North Carolina dental practitioners. Our faculty have made significant advances in dental materials, treatment of cleft lip/palate, diagnosis of maxillofacial pain, orthognathic surgery, radiology, maxillofacial prosthodontics, to name just a few. Over the last ten years, they have brought over \$50 million in external biomedical research funds into the North Carolina economy.

Finally, from time to time, the School of Dentistry is able to work with the major news media in North Carolina to educate the public about the role, the importance and the contribution of dentistry to the lives of people throughout the state. By helping to create a more refined awareness about dentistry and dental health, the School contributes to an elevated appreciation of dental science, dental professionals, and the need for both private and public dental health programs.

The UNC School of Dentistry's efforts to fulfill its commitment of service to the citizens of North Carolina is not an afterthought or a hollow gesture. It is a very tangible effort to contribute to two centuries of tradition at The University of North Carolina at Chapel Hill. The Schools' faculty and students appreciate the opportunity to serve.

The TARRSON GIFT

By Nancy Davis

Bud and Linda Tarrson help bring the dream of a new clinical teaching facility a giant step closer toward reality!

Dean Stamm, Linda and Bud Tarrson, and Chancellor Hardin with the architects drawing of Tarrson Hall.

Bud Tarrson

The John O. Butler Company is a familiar name in dentistry. And thanks to the Butler Company, known the world over for its innovation in producing preventive dental care products, we have the modern toothbrush with its multitude of colors and a host of other important oral health care aids.

Now the man who put Butler toothbrushes into the hands of millions of people worldwide is putting \$2 million into the University of North

Carolina School of Dentistry.

E. B. "Bud" Tarrson and his wife, Linda, have pledged the gift to help the dental school build its new \$13 million clinical teaching facility, to be named Tarrson Hall.

Tarrson is the retired chairman and chief executive officer of the John O. Butler Company, the Chicago-based maker of toothbrushes, dental floss and other oral hygiene products. Tarrson joined the company in 1949, the same year the UNC School of Dentistry was founded. He went on

to build the Butler Company into one of the world's largest and most respected manufacturers of dental products.

Tarrson attended the University of Illinois at Champaign.

"A long time ago I told myself that if dentistry continued to be good to me, I'd make a pledge to give something back to the profession," Tarrson says.

With this gift, the toothbrush tycoon is doing just that. His \$2 million gift is the largest ever to the dental school and one of the largest gifts in the nation to any dental institution. It is also one of the largest gifts from an individual to the Bicentennial Campaign for Carolina.

"A gift of this magnitude from someone who didn't even go to Carolina is unprecedented," Chancellor Paul Hardin says. "The Tarrsons' generosity will dramatically improve the way we teach this nation's future dentists and the patient care services we offer this community."

John Stamm, Dean of the School of Dentistry, says, "The Tarrsons are helping the School prepare for the next century. Our present clinical teaching facility was built in 1952, and it's out-of-date now. The Tarrsons' generous gift will allow us to provide the best in teaching and patient care, and it will permit us to produce several generations of high quality dentists and dental hygienists to serve the people of North Carolina."

Tarrson Hall

Tarrson Hall will be a five-story, 84,000-square-foot building connected to the southeast corner of Brauer Hall. It will be a model for technically sophisticated dental education. The building will house the patient care clinics, treatment facilities where dental students get hands-on experience by providing supervised dental care for patients from the community.

When the new building is complete, the teaching clinics will move into it, and the 40-year-old vacated space will be converted to research laboratories, classrooms and offices.

Through the Bicentennial Campaign, the School of Dentistry plans to raise at least \$3 million in private funds for the \$13 million project.

Will Owens

The University will seek the remainder from the NC General Assembly.

Tarrson has close ties with dental schools across the country and has made contributions to many. He says he made his largest gift ever to Carolina's dental school because he was impressed by the quality and commitment of its faculty.

Harry Bohannon, retired dean from the College of Dentistry in Lexington, Kentucky, has known Tarrson for more than 30 years.

"Bud has always been a very astute businessman. He followed his own ideas of how the company could and should be developed. In all the years I've known him, I've never known him to introduce or promote a product simply because there was money in it. He had to believe it would be good for people and their health," Bohannon says.

Stamm and Bohannon credit Tarrson with deciding early to focus on preventive dental care products. That turned out to be just the right decision.

Until the 1960s, dentistry had been oriented toward the restoration of teeth and the belief that tooth decay was inevitable.

"Bud saw earlier than others that, through prevention and self-care, people could improve their own oral health," Dean John Stamm says.

"I saw him take Butler from a company that grossed maybe \$500,000 a year to a company that grossed well over \$60 million," Bohannon says. "He did that by following his own intuition. He didn't get it out of books. He did it by his own gut feelings."

John O. Butler Company

The Butler firm was founded in 1923 by Dr. John Butler, a former periodontist whose physical problems prevented him from practicing. The original Butler toothbrushes had bristles that were made in China from boar's hair.

When Tarrson was a child, his dentist prescribed the Butler toothbrush to him. Later, Tarrson and his brother worked as salesmen for a company that marketed the Butler toothbrush.

Tarrson remembers the label on the early boxes read, "Dr. Butler Toothbrush for Humans." Such was the state

of oral hygiene in those days.

Dr. Butler revolutionized the toothbrush market by producing a narrow brush capable of reaching and cleaning the back teeth.

"Before that, people didn't bother brushing their back teeth," Tarrson says.

The Butler brush quickly became so popular that competitors began copying it.

All along, Bud Tarrson was convinced that the Butler toothbrush could be an even bigger seller. Slowly he convinced his brother. In 1949, Tarrson's brother bought the company and made Bud its manager.

In 1965, his brother sold the company to Bud Tarrson.

Building a Better Toothbrush

With the Butler Company in his control, Tarrson began associating more and more with practicing periodontists and with educators and researchers in the nation's dental schools.

"Dentists are all inventors and gadgeteers," Tarrson says. "They passed on ideas to me, and I sorted out what were the true needs and what were just gadgets."

Tarrson himself was a bit of an inventor. As the industry made the switch from natural bristles to nylon, everyone was searching for a way to smooth the sharp ends of the nylon bristles.

Using an old washing machine motor, Tarrson built a machine that would round the end of the synthetic bristle to duplicate that of a natural bristle.

"The Butler Company has always had a reputation for innovation, starting with Old Doc Butler," Tarrson says.

When other companies began adding a triangular rubber tip to the handle of their brushes, Tarrson made a better rubber tip -- a rounded one that made it easier to massage the gums.

Tarrson also holds a patent on a dental floss threader and numerous other hygiene aids.

In 1984, Tarrson took the Butler Company public, but he and his family retained 70 percent of the stock. Then, in 1988, a Japanese company offered to buy Butler for nearly \$160 million. It was a deal that Tarrson didn't want to

accept, but his stockholders pressed him to sell. At \$25 per share, the price was nearly double the most recent trading range of the stock.

"I never wanted to sell," Tarrson says. "I loved the business and the people. But the Japanese company let it be known that they were willing to buy at a big profit to the shareholders."

Tarrson stayed on for two more years, then retired.

He still has friends in the industry all over the world. And he maintains his commitment to the dental profession through his associations in professional groups and through his financial contributions.

Tarrson has established fellowships, donated toothbrushes around the world and created a dental research foundation. He has made gifts to the dental schools at Columbia University and the University of Southern California as well as to Carolina. He has reprinted and bound a rare collection of research papers by C.C. Bass, known as the father of preventive dentistry, and distributed them to the libraries and departments of periodontics of all US and Canadian dental schools.

His colleagues have recognized his commitment with numerous awards. He is proudest of his honorary memberships in the Academy of Periodontology and the American Dental Association and his more recent association with the UNC School of Dentistry, where the new clinical teaching building will bear the Tarrson name.

School of Dentistry benefactor, Bud Tarrson.

Will Owens

WHY I GIVE

Some 30 years ago, I was introduced to post-graduate education at the UNC Dental School. Since then I have participated in many post-graduate courses.

Over the years, I have also had the opportunity to be a part of the Dental Foundation and be involved with the School on other levels.

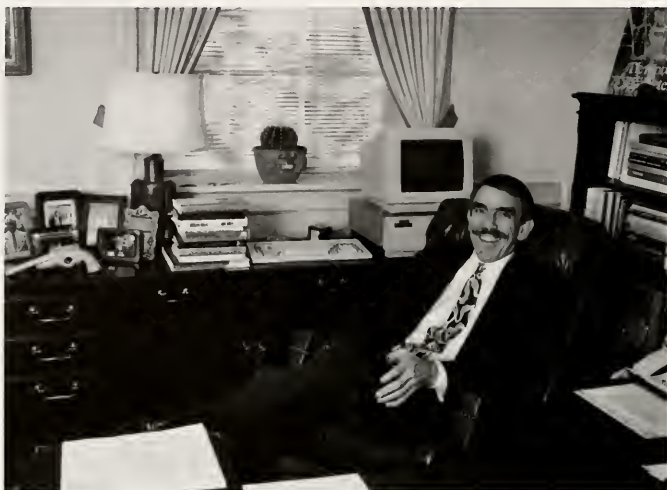

Even though I am not an alumnus of the School, I almost feel like I am because of what the School has done for me and the state of North Carolina. It is a distinct pleasure for me to give because the UNC Dental School has helped me in so many ways.

*Dr. Robert B. Litton, D.D.S., Shelby, NC
1954 Graduate of Baltimore College of Dental Surgery*

Dr. H. Garland Hershey

Vice-Chancellor for Health Affairs

Dr. H. Garland Hershey

Surgeons or internists typically head the academic health centers at most major American universities. Rarely a non-physician.

Dr. H. Garland Hershey has changed that trend at the University of North Carolina at Chapel Hill and is one of only a handful of dentists in the nation holding the top administrative health position at universities.

Hershey, who was named Vice-Chancellor for Health Affairs in 1983 after serving as a professor and administrator in UNC-CH's School of Dentistry, says academic health centers normally turn to medicine for the top spot because those schools have the largest faculty, the biggest budget and the most tradition.

"It's very unusual for anyone other than a physician to have the opportunity to accept such a position of

responsibility," Hershey says. "In time, I think someone's degrees or the letters after your name become less of an issue. For a while that was an extra challenge for me. Now I'm simply the Vice-Chancellor. In my early years in this position, the quality of our School of Dentistry gave me a boost because it was so respected at the university and across North Carolina."

As Vice Chancellor, Hershey holds one of the University's two top academic positions. He oversees five schools — Dentistry, Medicine, Nursing, Pharmacy and Public Health — as well as the Health Sciences Library and several major research centers and institutes. Those units, many of which have been recognized at the national and international levels for quality and innovation, provide a wide range of services to health-care

professionals and citizens in North Carolina.

Besides Hershey's ongoing position as Chief Executive Officer of the medical center, Chancellor Paul Hardin appointed him to the additional position of Vice Provost in 1987. In this role he co-directs the Office of Provost, giving him important responsibilities for areas that cut across both the academic and health affairs divisions. Those areas include the Graduate School, computing and telecommunications, research and support services, as well as facilities such as the Ackland Art Museum, the Morehead Planetarium and the Carolina Inn. He also currently serves as the University's Interim Provost.

Hershey has received high marks for successfully carrying out those responsibilities.

"Garland Hershey is one of our wisest and most experienced administrators," Chancellor Hardin says. "He is also a delightful colleague who can be counted on to take his job seriously, but not himself. He is invaluable to the University and to me."

Hershey believes his post is a boon for the dental profession because it gives a dentist a unique opportunity to influence health care in North Carolina and beyond.

"Having a dentist in this position just elevates the standing of dentistry in the health professions, particularly if there's a dentist who can do the job and be reasonably successful," he says.

Nationally, Hershey is a member of the Association of Academic Health Centers' Long-Range Planning Committee, which recently outlined a series of major recommendations that will guide the future of health professions education in the United States.

Such service, which has included other leadership positions in the Association, "gives dentistry a voice at the table nationally," he says. "This is a very rewarding and significant aspect of this job."

Hershey's involvement also gives him a chance to influence major issues facing health professionals.

"It's important that dentistry is

represented when this country sets public policy on health-care costs, particularly in the area of reimbursement, as well as other areas such as AIDS treatment and prevention — critical issues for the dental profession," he says. "Policymakers in Washington are establishing a number of AIDS-related guidelines, rules and regulations that have a tremendous effect on the practice of dentistry. Before, they didn't have to worry about gloves, masks, clothing and barrier protection. Such issues mean tens of thousands of dollars every year in costs to dental offices alone. These are all problem areas that we didn't even have to think about five or ten years ago."

Hershey came to Chapel Hill from the University of Iowa where he was a faculty member in oral diagnosis and orthodontics and a staff research assistant in a cleft palate program while completing graduate and professional education. The Iowa City native received his D.D.S. and master's degree in orthodontics from the Iowa's College of Dentistry after doing undergraduate work at Grinnell College.

Hershey accepted Bob Nelson's invitation to join the orthodontics faculty at the UNC-CH School of

Dentistry in 1971. He thought that stint would be brief because he planned to start a private practice.

But Hershey discovered a commitment to education. He became a professor, and Dean Ray White appointed him the School's Assistant Dean for Academic Affairs. Later he was named Associate Dean for Academic Affairs and also served as Director of Graduate Education.

Hershey's dental school ties remain strong. He continues to serve as Professor of Orthodontics, teach and treat patients in the faculty practice, unusual activities for a Vice Chancellor.

"Garland Hershey leads the University's Health Affairs division with skill and vision," says Dean John Stamm. "He has deftly coordinated the many complex elements needed for a health center that is an international leader in education and research. Though shouldering this extremely heavy administrative burden, Dr. Hershey maintains many close personal friendships with School of Dentistry faculty and is readily accessible for advice and consultation concerning issues of importance to our institution. We are very proud of his success in the University's higher administration."

ARE WE MISSING YOU?

Did your Dental Alumni Association membership renewal slip to the bottom of your "to do" stack?

Good News! It's not too late!

Be a part of this special group and join in the Alumni events planned throughout the year.

Friends and Colleagues

Pay Tribute to

Willie Demeritt

Remarks by Ben Barker, Saturday, February 22, 1992

On December 26, 1991 Dr. William W. Demeritt died at the age of seventy-six. On February 22, 1992 his daughter, Tina Bell, and son, Bill, invited friends and loved ones to the Carolina Inn to share in a special memorial celebration as a tribute to this incredible friend of the School of Dentistry. The remarks that follow were offered by Dr. Ben Barker, Willie's colleague and personal friend.

Dr. William W. Demeritt

To be asked to undertake this task in behalf of Willie Demeritt is something very special for me. He was my mentor and friend. Jeanette and I are among the many people who regarded him, and his family, as close personal friends. It is a privilege to share in this celebration. Tina and Bill shared a letter from Jim Bawden, who could not be here this afternoon. It strikes me as a wonderful backdrop to much that we are sharing today. Jim expresses his regrets and then goes on to say:

"There are not many people associated with the School of Dentistry these days who remember Willie, and who understand the extremely important role he played in establishing and

developing the School. His absence from Chapel Hill and lack of contact with the faculty all these years have dimmed the memories that remain. That is unfortunate, because Willie was a great man."

And he goes on to write some of the things that distinguished Willie's service to the University. He closes with these words:

"For all these years he has been away, we hoped that someday he would recover and return to us -- that he would once again share his life and his thoughts with us. But that won't happen now and we are deeply saddened. We have missed him and will always miss him. I wish that the many people who didn't know him and who don't know how important he was to the School could know and understand, but they won't, they can't. They missed something very special."

It seems to me that somehow, the old make our past; once they go it seems for a moment that neither it nor we have any real existence. I readily confess that as I peeled away the years, I began to fear the ghosts I was about to bestir. The reason that we are doing this, of course, is that Willie has gone along the Silent Way; and this is an opportunity for all of us to consider his role in our lives and how we shared life in the University and in this community together. In doing so, we are calling upon shared memories and experiences and we are reminded that memory is a central element of our human sharing. The other reason for being here is that this is our way of trying to understand ourselves. Unless we begin with where and who we really have been--we will never find our way out of here. So, there is a great deal to tell and we will not be able to tell it all.

To begin, we need to get our bearings in regard to place and time. Willie was a part of our world for many years, but Chapel Hill is not a typical setting; nor was the time of his faculty service a commonplace one. It is also important to say a few things about the distinctives about Chapel Hill. It is the site of this state's flagship University. We need to contemplate for a minute the place that Chapel Hill holds in the State of North Carolina, in the South and beyond. This University has become one of the major research universities in the world. In the late forties, the University had been a genuine partner in the North Carolina Good Health Movement that led to the creation of the academic health center at the University. Not everyone wanted it, and many did not want a dental school here. All of which is to say that Chapel Hill and the University were, as usual, a center of ferment.

It was on this scene that Willie Demeritt and his family descended in the early 1950's. It was a period of unparalleled growth in main line universities across the land, and new dental schools were cropping up in all the states in the Southeast. There is no question that the school here in those days

served as a model elsewhere because of its creativity, imagination and leadership. It was by any standard of reckoning a remarkable achievement. I know, because I later became part of it and learned about what others were trying to do elsewhere, and why so many of them came to Chapel Hill to see us first hand. We can say, that the times then were propitious and that kind of spirit cannot be replicated today. The team-work of mutual respect that held us together produced accomplishments that were without many equals throughout the country--and Willie was the operations officer and leader who held it, and us, together and explained it to the world.

He approached it all with the calm of a Christian with four aces, although he was exceedingly plain spoken about the oral health problems confronting children in North Carolina and the new role he saw for the dental profession. The request to him, as I understand, was that he lay off speaking so pointedly about the issue because it was feared that funds for the new building and other opportunities would not be forthcoming. Willie's response was to the affect, that during the time that we had no building, we had a school and a very fine one. And that the danger before us was that we may gain a building, but may not have a real and authentic school to put in it. That is true leadership. It is faithful to the cause that brought him to this place and it is also raw human courage. Not everyone may agree, but it brings respect, high regard, and confidence when our leaders are not for sale.

And why is this so important? It is all important because there have always been and will always be those among us who do not support these values, who tend to be the very ones who seek to sell their own personalities instead. Willie was self-effacing and stubborn to a fault in adhering to the truth, rather than catering to people's wishes, and rather than seeking to sell himself and his personality to produce disciples for his own self-advancement. I feel honored to have been a part of that time and to take part in celebrating a life like this.

Willie Demeritt was a builder. He was one of those people who helps remodel institutions for tomorrow, and he did it by industry and careful thinking and bringing the talents of others to bear on this work. This resulted in a new and vital Department of Pediatric Dentistry, an innovative approach to dental continuing education that attracted hundreds from across the Southeast, and a Dental Faculty Practice that is still unique in this nation. All the while he had much that many others lack: a loving home life, a civilized sense of values, and the ability to enjoy himself and transcend himself to find some meaning in the universe beyond his own personal ambitions. In public and private, he accepted each person on their own terms, as an individual; no small tonic, this, for the unliberated then in our midst.

Willie's passing came a bit too soon as far as I am concerned. I was hoping that with some more time, I'd be able to figure him out. I say that as his subordinate, his colleague and friend for 35 years. During that time I have heard from others about Demeritt and always the word "power" or "powerful" was mentioned. It was never true.

In today's world, assistant deans are as numerous as bacteria; back then he was the only Assistant Dean in the School. They said he was powerful. He was thoughtful and thought provoking. They said he was powerful. He had friends in high places. People sought him out. People quoted him. He was powerful. But all that power, all those bonafides and of course his position at the School never somehow added up to what you or I might consider power.

To have power and not to use it ... well, it's just plain hard to imagine. Sometimes Willie would complain about something. Sometimes he would question a decision, the hiring of this or that person, but rarely did he overrule a subordinate. After a while, I credited this aspect to confidence, to his not having to control and bully subordinates so that they would be nothing but clones of himself. Good thing, too, one Demeritt was enough.

I want to say that Willie Demeritt

was a philanthropist, but philanthropist is not quite the word I am looking for. The philanthropist gives away money, sometimes lots of it, but never all his money and, usually, not so much money that he has to reduce his standard of living. But Willie gave away his power. He said that if we did our work and got results, he would not interfere. He made that a rule. He made it so we all believed him, and when that happened, his power was diminished. He could hire and he could fire, but--as long as we met the standard--he would not stop us. That is what he gave away.

I put these thoughts together in a kind of time warp, wondering what we might have said on his last day at work had it been the usual departure and retirement. We would have had some fun with him on that occasion. We would have joshed him and poked fun at him and tried to tell some stories to embarrass him. That's the way these things are done, which is okay I suppose. Otherwise, people would get sappy and maudlin. We are mature professional men and women after all and we have a certain reputation to uphold. I would have done my part, I hope. I would have kept it light, I hope. I would not have talked about how I felt, which is sad and older. I would not have said anything about power, which everyone thinks he would have lost after that day. Actually he gave it away years ago--traded it for a diamond-hard principle of personal integrity. That's why he had so little power--and so much authority.

And so it goes, memories--memories of laughter and music (especially marching to John Phillip Sousa with a plumber's friend in the lead) and dancing and oysters and shrimp and doing and being, loving and caring, joy and sorrow, garden paths and pick-up trucks, birdies and bogies, birth and death, and all that contributes to richness in shared human experience.

Once again we are reaffirmed: You can lose a man by your death, but you cannot lose him by his.

Note: Contributions toward the Willie Demeritt Professorship in Pediatric Dentistry are welcomed.

Team Building in Dental Practice

The School works with Statewide DOTS Consortium to improve management strategies, strengthen communications, and enhance job satisfaction.

In 1988, a consortium of dental professionals began to meet in a cooperative spirit to address concerns about the retention of dental team members. This unique consortium includes representatives from the University of North Carolina School of Dentistry, the North Carolina Dental Society, the North Carolina Dental Hygienists' Association, the North Carolina Dental Assistants' Association, the North Carolina Area Health Education Centers (AHEC), and the North Carolina Division of Dental Health. The collective effect of their work has resulted in the DOTS initiative.

During the initial phase, a statewide survey of NC dentists, dental hygienists and dental assistants/office managers/ receptionists was conducted to measure attitudes, experiences and behaviors that may contribute to currently reported problems in retention of dental office team members. Information from the survey has been used in designing workshops, educational materials and other activities directed toward improving the dental office environment and ultimately, dental team retention.

In the summer of 1988, two School of Dentistry faculty members, Ms. Darlene Sams and Dr. James Bader, were contacted to help design and implement the study. Ms. Sams is Clinical Assistant Professor in the

Department of Dental Ecology and is the Director of Dental Education at the Wake AHEC. Dr. Bader is Research Associate Professor in the Department of Operative Dentistry. The time these two faculty have invested in this project has been invaluable. Together they wrote a grant proposal that resulted in the awarding of a \$15,000 challenge grant by the American Dental Association. Additional funding was provided by all sectors of the dental community including local and regional dental societies, state dental assisting and dental hygiene associations, AHEC, the School of Dentistry and the Dental Foundation. All told, the groups donated more than \$40,000 in cash and services.

Sams said that from the start, Dean John Stamm was eager to involve the School in the DOTS program. "He was a strong supporter," said Sams. "He was committed to looking at the problem and the factors for improvement." Sams and Bader have also worked closely with the DOTS committee, chaired by Dr. Miller Gibbons, who also chairs the Council on Dental Practice and Dental Administration for the North Carolina Dental Society.

Three comparable questionnaires were designed to survey all practicing dentists, dental hygienists and dental assistants/office managers/receptionists. These former dental team members were asked to respond to questions about demographics, employment experience, salary and benefits, work arrangements, office climate, career and job satisfaction, managerial characteristics and personnel approaches in their offices. A fourth survey targeted dental members who had left dental practice. These former team members were asked about demographics, employment experience, reasons for leaving and reasons to return to private practice.

In 1990, questionnaires were mailed to 2,487 dentists, 2,099 dental hygienists, 3,371 dental assistants and 634 former team members. Bader noted, "It's the first time the opinions of all members of dental office teams have been determined and compared with one-another. The results give us a deeper insight into satisfaction and its relationship with management."

The survey indicated that there is no single issue linked to dissatisfaction or turnover among active dental team members. Sams said that the survey revealed that the team was most likely to be satisfied with a "humanistic style of management" where team members are recognized and encouraged, and where they participate in the decision-making and communicate openly among themselves. The Table lists management factors linked to two elements of job satisfaction: intrinsic or internal satisfaction, and extrinsic or tangible satisfaction.

The survey information is being disseminated at NCDHA and NCDAA meetings, NCDS District Meetings, and in dental journals, such as the Journal of the American Dental Association, Dental Hygiene and the

Journal of Public Health Dentistry. Sams said the goal of the survey was "to develop a series of educational seminars to help team members address issues in their practices which contribute to job dissatisfaction." This in turn should improve retention. The first of five series of regional "Dental Office Team Seminars (DOTS)" was held March 27, 1992 in Greensboro.

The DOTS seminars bring the teams together, allow participants to apply strategies during the seminar and give assignments to take back to the practice for additional discussion. Seminars address a host of issues that were cited in the survey including: communication, benefits, salary, mission, goals, decision-making, leadership, personnel management, problem-solving and conflict resolution.

After completing the seminars, the impact on practices will be evaluated. Questions will be asked to determine if the seminars make a difference in attitudes, behaviors and management practices which contribute to the retention problem.

The DOTS program is important to the dental profession. The work of the consortium represents a commitment to work together in a health partnership to address the needs of dental practices in North Carolina. The partnership underscores the School of Dentistry's commitment to working with the dental community to address concerns and improve retention of dental team members. The School, along with the other members of the consortium, have made invaluable contributions toward this end.

The challenge to the profession is to take the information learned about strengthening the dental team and work together to make a difference in North Carolina. And that is what the program is all about -- making a difference.

PROFFIT NAMED KENAN PROFESSOR

Kenan Professors, Dr. Bill Proffit and Dr. Don Warren.

On January first, Dr. William R. Proffit became the second School of Dentistry faculty member to be awarded a Kenan Professorship. Dr. Proffit joins Dr. Don Warren in the ranks of these distinguished academicians. The School of Dentistry currently provides the home for nearly 25 percent of the Kenan Professors in the UNC Health Affairs Division.

The Kenan Professorships are one of four categories of "Kenans" on this campus. Established between 1917 and 1968, these categories are: the Kenan Professorships (1917); the William R. Kenan, Jr. Professorships of which there are 92 in universities around the nation, 25 in Chapel Hill; the Graham Kenan Professorships (1968) of which there are two in the School of Law; and the Sarah Graham Kenan Professorships (1968) of which there are five in the Division of Health Affairs. It is significant to recognize that the Kenan Professorships, those without any first names attached, were the earliest to be established and that there are only 18 of them - nine in Academic Affairs and nine in Health Affairs.

The Kenan Professorships were established in 1917 through the bequest of Mrs. Lily Kenan Flagler-Bingham, in memory of her father and her two Kenan uncles. Her gift to UNC was for \$2.1 million, which initially provided approximately \$75,000 in annual income. At the time, the bequest was described as the largest gift ever made to a state

university in the United States. News of the gift traveled very slowly. One of the earliest reports was found in the New York Sun, which stated among other things that the bequest "...will definitely put Chapel Hill on a real University basis,...and will doubtless break a broad way for future benefactions of great moment to the State and its venerable center of education." So slow was the notification of the University that the then President, Edward Kidder Graham, first learned about the gift from Charles Webb, a newspaper man in Asheville. So uncommon and unexpected was Mrs. Flagler-Bingham's bequest that in North Carolina it was first reported as a \$75,000 gift, rather than as a \$2.1 million endowment that would earn \$75,000 annually. The distinguished Kenan Professorship, earned by the School of Dentistry faculty, is steeped in history, tradition, and prestige.

Bill Proffit is one of the most renowned orthodontists in the world. Currently, he is perhaps the most scholarly orthodontist in academia, one who also maintains an active clinical practice. His training in dentistry, orthodontics and physiology (PhD) has made him into the epitome of the clinician-scholar. Proffit is one of the most intellectual and creative people in dentistry. He uses his powerful gifts well, and has trained a large number of the country's most thoughtful, scientifically based orthodontists.

Proffit has built his reputation though his academic

contributions to the National Institutes of Health (NIH) and to three schools of dentistry: the University of Kentucky, the University of Florida, and the University of North Carolina. While at the University of Kentucky, Proffit continued work he began at NIH on the influences of oral soft tissues on speech, mastication and other aspects of oral function. Over 25 years ago he developed technology, in collaboration with engineers from IBM, to measure oral soft tissue pressures generated by the tongue, lips and cheeks. His papers on the subject are classics and he continues today his association with IBM in developing ultra sensitive transducers to study daily tooth eruption in patients. Nationally and internationally, Proffit is best known for his studies of patients treated by orthognathic surgery, most of them in conjunction with distinguished oral surgeons from the University of North Carolina.

Remarkably, Bill has held major research grants (ROI's) for over 18 years, and for the last 11 years has managed two grants concurrently. The National Institutes of Health recognized Proffit in 1987 with the prestigious MERIT (Method to Extend Research in Time) Award. The MERIT Award acknowledges a principal investigator for an outstanding record of scientific achievements over many years. The award provides for three to five years of additional funding beyond the original award and exempts the investigator from the traditional competing renewal application. Through this award, the National Institute of Dental Research recognized Proffit as a leader in his field and expressed their conviction that he would continue to make significant advances in dental research for years to come.

Proffit's work, and that of his team of colleagues, has led to publication of 82 papers and four major textbooks, which form much of the basis of contemporary orthodontic and surgical treatment today. His book, *Contemporary Orthodontics*, is the leading text in its field, and is used around the world. While at the University of North Carolina, Proffit has developed a

clinical data base that includes over 3,000 patients, over 500 of these having had surgery and orthodontic treatment with follow-up of three years and longer. This data base, which supports ongoing studies involving epidemiology of dental-facial deformity, stability of treatment, changes in oral function, and outcome assessment of different therapeutic approaches, promises to provide results well into the next century.

Proffit has used the results of laboratory and clinical investigations to provide a framework for training dental students and orthodontic graduate students. His thrust has been to tie together research findings with clinical care. Many of his trainees serve as faculty members among academic institutions in this country and abroad. His former graduate students extend his approach to research, patient care and teaching. Dean John Stamm says of Proffit and his work, "It would be difficult to identify anyone in dentistry today who has contributed more to clinical research in his discipline and has transferred more of this information to patient care than Bill Proffit."

It should be no surprise that Proffit is highly regarded in a wide range of circles. A Fulbright Fellow in 1972, in recent years he has been honored as the Alton Moore Lecturer (University of Washington, 1984), Jaraback Lecturer (University of Michigan, 1985), Paul Geoffrion Lecturer (University of Montreal, 1985) and as the Northcroft Lecturer for the British Society for the Study of Orthodontics (1985). In May 1991, Proffit gave the prestigious Salzman Lecture at the annual meeting of the American Association of

Dr. Proffit tends to the residents in his greenhouse.

Orthodontists. He has served on editorial boards of several journals, has been a consultant to many organizations and has served on Study Section at the NIDR. The Royal College of Surgeons (London) awarded him an honorary degree in 1990.

His leisure hour passions (yes, this man of many talents and incredible accomplishments does put dentistry aside from time to time) include tending to his greenhouse and some fifty plus rose bushes, donning his railroad engineers cap and monitoring the activity of his extensive model train collection, and engaging in a rigorous game of tennis—he likes to win.

The School of Dentistry is proud to recognize Bill Proffit's many achievements and applaud his most recent achievement, the distinguished Kenan Professorship.

You are invited to the

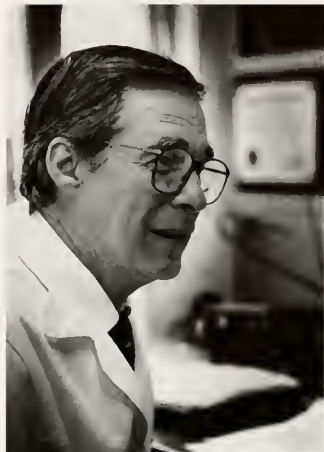

38TH ANNUAL DENTAL SEMINAR DAY

November 20, 1992

Sponsored by the School of Dentistry and the Dental Foundation of
North Carolina

Come back to UNC for a great day of CE.

SCHOOL NEWS

Dr. James C. Eagle, Jr.

Eagle Honored Again!

The Richard F. Hunt Award for Teaching Excellence is awarded each year to "a teacher who knows his subject, likes students and attempts to know the students as individuals, in addition to demonstrating a broad perspective about other aspects of dentistry and related knowledge."

For the first time this award has been presented to the same faculty member two successive years. Dr. James C. Eagle, Jr., the 1991 Hunt Award recipient, was honored again in 1992 at the Spurgeon Dental Society Banquet in March.

Dr. David P. Dobson (Removable Prosthodontics) is the only other individual to have received the award twice (1972 and 1981).

Dr. Eagle, a Clinical Associate Professor in Dental Ecology, is responsible for a core course in dental practice management for the Juniors and an elective course for the Seniors. He held a part-time faculty appointment in the Department of Operative

Dentistry from 1974 to 1989. In August of 1989 he accepted a full-time position with the Comprehensive Care Program.

The Hunt Award was created by the Loblolly Study Club as a memorial to Dr. Hunt, a class of '55 graduate and Study Club member. The award provides recognition for a member of the faculty and is designed to inspire other faculty to pursue excellence. It provides the student body with a mechanism to recognize excellence from the student perspective. "To have been recognized by the students once was an indescribable honor," says Eagle. "To receive the award a second time is simply overwhelming and I am deeply touched."

First D.A.T.E. Educational Achievement Award Given

In 1988, the alumni of the Dental Auxiliary Teacher Education (D.A.T.E.) established the Mary Caldwell George Educational

Ms. Gayle B. Maynor

Achievement Award in honor of Ms. George's contributions to the D.A.T.E. program during the 14 years she served as director. On March 31st, Gayle B. Maynor became the first recipient of this award. Maynor, a first year Master of Science degree candidate in D.A.T.E., received the award at the Spurgeon Dental Society Annual Banquet on March 31.

Selection is based on the student's achievements, affective qualities and potential as an allied dental educator. Other criteria require that the individual have high ethical standards, be self-directed, motivated and inquiring enough to develop critical thinking skills and leadership qualities. The award also specifies that the recipient have a desire for life-long learning, be ethical in professional conduct and exhibit support for dental and allied dental education.

Ms. Maynor graduated from Florida Junior College and the University of West Florida. Prior to being admitted to the M.S. program in D.A.T.E., Ms. Maynor taught dental assisting and dental hygiene for 5 years at Pensacola Junior College in Pensacola, Florida, and Florence-Darlington Technical College in Florence, SC.

Students Honored in Who's Who

The School of Dentistry will have twenty-one students listed in Who's Who Among Students in American Universities and Colleges.

Recognized from the UNC School of Dentistry are: Kenneth E. Chapman, T. Lenise Clifton, David G. Collins, Lydia N. Davis, Leslie Ann Deaton, Cheryl G. Freeman, Bradley S. Frey, Jodi R. Hamilton, Sarah E. High, Keith W. Mann, Heather L. Oberlander, Lee E. Oppenheimer, Richard T. Risinger, Allen D. Samuelson, Cheryl M. Trentini, Christopher J. Trentini, Britt E. Visser, Moses Watson III, Kenneth M. Welborne, Kristen W. Welborne, Jane M. Young.

Students are chosen based on academic achievement, service to the community, leadership in extracurricular activities, and potential for continued success.

Rod Fairb

Dr. Aldridge D. Wilder, Jr.

Class of '58 Award

The Class of 1958 Distinguished Clinical Research Award was presented to Dr. Aldridge D. Wilder, Jr. '73, Associate Professor in the Department of Operative Dentistry. The award was presented during the School of Dentistry's Annual Dental Research in Review Day held February 26, 1992.

The Class of '58 Award is an annual award, given in recognition of a faculty member's research which has the "greatest potential for direct contributions to the practice of dentistry and dental health generally." Selection is based on a research article published during the previous academic year in a peer reviewed journal.

Dr. Wilder's article, "Five-year Clinical Study of U.V.-Polymerized Posterior Composites," was published in the April 1991 issue of the *Journal of Dentistry*, co-authored with S.C. Bayne, K.N. May, K.F. Leinfelder and D. Taylor. The article is part of a fourteen year clinical study, the longest running longitudinal study on posterior composites in the world. This benchmark research is defining the clinical longevity of these materials.

Faculty in the News

Recent media attention has focused on School of Dentistry faculty and their research. Clearly the work being done at the School has direct clinical applications and the potential to benefit scores of patients. Our endeavors reach far beyond the walls of Brauer Hall.

Research by **Dr. Kitty Tulloch**, Associate Professor, Orthodontics, was featured in a front page article in the *New York Times*. The article focused on a study she and colleagues conducted to evaluate the alternative strategies for the management of wisdom teeth. Using the available literature and expert opinion, they modeled the expected outcome of different management approaches. Based on the results of this study, the authors were unable to support the claim that the early removal of asymptomatic teeth should be expected to reduce pain and discomfort for patients. The universal relevance of this problem and the substantial costs involved merited wide coverage in the *Times*, and other syndicated national, international, and health care publications.

In March and April, Lifetime Medical Television featured **Dr. Harald O. Heymann**, Chairperson, Department of Operative Dentistry on their Dentistry Update aired every Sunday. Film crews descended on the School to shoot footage on esthetics in general practice. Heymann highlighted the important role composite materials have in general dentistry and the development of new material and procedures, including dentin-bonding and CAD/CAM inlays and onlays.

Dr. Glenn Minsley, Associate Professor, Department of Prosthodontics and **Dr. Jacob Hanker**, Professor, Research and Biomedical Engineering were recently featured in the Chapel Hill paper. Dr. Minsley and School of Medicine colleague, Dr. Harold Pillsbury have developed a technique for attaching craniofacial prostheses, such as ears, noses, and eyes, with magnets. The procedure,

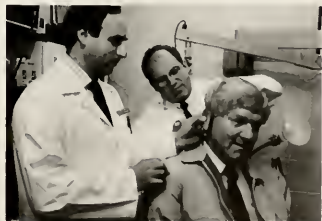

considered a major breakthrough in facial prostheses, utilizes the principles of dental implants. Patients no longer have to fear that their prostheses, held in place by a spray on adhesive, will fall off due to oily skin or humidity. FDA approval for this procedure is expected this fall.

An artificial bone material developed by Dr. Hanker and colleagues is being manufactured and marketed by Lifecore Biomedical Inc. This bone graft material, a combination of plaster of paris and tiny ceramic particles (hydroxylapatite), enhances collagen formation and eventually new bone growth in areas with defects. For many patients, this material eliminates the need to surgically obtain graft material from the rib or hip. Many individuals will maintain their natural dentition due to the use of this material.

Omicron Kappa Upsilon Induct New Members

The Upsilon Upsilon Chapter of Omicron Kappa Upsilon (OKU) Honor Dental Society held its annual Convocation Banquet on Sunday, April 26. The eight members of the Class of 1992 elected to membership are, T. Lenise Clifton, Cheryl G. Freeman, Allen D. Samuelson, Cheryl M. Trentini, Christopher J. Trentini, Britt E. Visser, Moses Watson III, and Kristen W. Welborne. Dr. C. Frank Brantley and Dr. Diane H. Dilley were elected to faculty membership. Life membership was conferred on Dr. Bill C. Terry. Criteria for life membership state that the individual be 60 years old and a member for 30 years.

Rising junior, Grant H. Service, was honored with the William S. Kramer Award of Excellence. This award recognizes a student who has demonstrated scholarship, character, and the potential promise for advancement of dentistry and service to humanity as shown by Dr. Kramer's dedication to his profession, his specialty, and the principles and ideals of OKU. Congratulations to Grant and the new members of OKU.

L-R, Dr. Glenn Minsley, Dr. Harold Pillsbury and patient.

DEVELOPMENT News

will operate across the University as well as within the Dental School. A successful Faculty/Staff Campaign will be extremely helpful in illustrating to businesses and other potential donors the support which the University has from its own employees.

Gift Announcements

It is with a great deal of gratitude and pride that we announce a few of the most recent gifts and pledges towards the Campaign for Excellence:

The Dickson Foundation, Inc., of Charlotte, has pledged \$50,000 over five years to establish the Dr. Jacob B. Freedland Scholarship Fund at the UNC School of Dentistry. The Freedland Scholarship Fund will be a permanent, endowed fund which will provide support to a graduate dental student in endodontics or oral biology each year. Alan Dickson, President of the Foundation and of Ruddick Corporation, is a long-time friend and admirer of Dr. Freedland and said that he hopes others might add to the Freedland Scholarship Fund in the years ahead.

Mr. and Mrs. Earl N. Phillips, Jr. of High Point, have pledged \$50,000 to the new clinical teaching facility. Phil and Sallie's gift, which is part of a larger pledge to the University's Bicentennial Campaign for Carolina, is in recognition of North Carolina's fine dental school and the excellent care they and their children have received here. For those who remember Monte Miska, Phil tells a wonderful story about an experience he had as a UNC undergraduate student under Dr. Miska's care. Phil is the past Chairman of the University's Board of Trustees, serves on the Bicentennial Campaign Steering Committee, and is President of First Factors Corporation in High Point. He graduated from UNC in 1962 and Sallie in 1970.

Dr. and Mrs. Henry S. Zaytoun, Sr. of Raleigh, have made a gift of real estate to the Campaign for Excellence. That in combination with extremely generous cash gifts each year from Zaytoun Orthodontics and other family members, will amount to a commitment from the entire family well in excess of \$40,000 over the

There is Still Time to Make a Gift this Fiscal Year!

Although participation in our annual fund has been going up gradually over the last couple of years, we still have lots of room for improvement. As of the end of April 1992, 1092 individuals had contributed \$520,000 to our School in the 91/92 fiscal year. Of those 1092 individuals, 788 were alumni which represents a participation rate of about 22%. Please consider making a gift by June 30 -- the end of our fiscal year--if you haven't already done so. We appreciate your support greatly.

Campaign for Excellence Update

Plans for the solicitation of all dentists in North Carolina are moving forward well under the direction of Dr. James Harrell, Sr. of Elkin. Five District Directors have enthusiastically agreed to manage the Campaign in their districts. They are: Dr. James Elliott of Asheville (District 1), Dr. Keith Bentley of North Wilkesboro (District 2), Dr. Steve Mackler of Greensboro (District 3), Dr. Jack Sowter of Raleigh (District 4), and Dr. Ken Morgan Sr. of Jacksonville (District 5). The District Directors are currently in the process of recruiting volunteers in their areas to help lead the Campaign which will take place in January of 1993. Additional plans for the solicitation of alumni outside of North Carolina as well as dental hygiene alumni are still under consideration.

The University's Faculty/Staff Campaign, which will encompass the Dental School is also in the organizational stages. Dr. Ray White has agreed to serve on the University's Steering Committee for this effort and will be planning how the Campaign

Dr. Gregory Chadwick and Dr. Henry Zaytoun, Sr.

Dental Foundation News

Dr. D. Gregory Chadwick (DDS '74, MS '76) of Charlotte, conducted his first meeting of the Dental Foundation of North Carolina, Inc., on April 3, 1992. New members to the board include Dr. Nona I. Breeland (DDS '87, MS '90) of Chapel Hill, Dr. Wallace B. Butler (DDS '61) of Welcome, Dr. H. Bryan Cobb (DDS '77, MS '79) of Greensboro, Dr. Donald D. Culp of Charlotte, Dr. Stanley L. Fleming of Durham, Dr. E. Flynn Harris (DDS '60) of Charlotte, and Mrs. Linda Tarrson of Chicago, IL. This is a critical time for the Dental Foundation board members as they work to ensure the success of the Campaign for Excellence. During the meeting, Dr. Chadwick reactivated the Honors and Awards Committee and appointed a group to study how to increase participation in fund-raising activities.

course of the Campaign. Discussions regarding the designation of the gift are still in progress. Henry Sr. was an undergraduate at UNC, went to Maryland for dental school, and returned to receive an advanced degree in orthodontics in 1959. Henry and Martha have nine children, all of whom have been educated at the University of North Carolina at Chapel Hill. Three of Henry's children have attended the UNC Dental School: Mary Paula Zaytoun-Steele (DDS '78), Joanne Zaytoun-Penny (BSDH '75), and Henry Jr. (DDS '84, MS '87). Henry Sr. is past president of the Dental Foundation of North Carolina, Inc., and serves on the Steering Committee for the Campaign for Excellence.

Dr. and Mrs. Mark E. Hyman, of Greensboro, have given \$10,000 in stock to endow the Dr. Ronald P. Strauss Community and International Health Award at the UNC School of Dentistry. The award in Dr. Strauss's name will encourage students to broaden their awareness of social and cultural influences on health care during a summer internship. As Dr. Hyman recently noted in a letter to several of his classmates, "When I think back to my own UNC experience, one person stands out in my mind for his gentle compassion, caring, and concern for us, Dr. Ron Strauss. Ron guided me into multiple care experiences that helped form who I am and how I practice."

After completing his DDS in 1984, Dr. Hyman finished a GPR residency at the UNC Hospital and worked as a dentist for four months in Israel. He continues to serve the community through his work with the American Cancer Society, the Blumenthal Jewish Home, and as President of the Guilford County Dental Society. The faculty member for whom the award is named, Dr. Strauss, is a professor in both the Schools of Dentistry and Medicine, serves as Dental Director of the UNC Craniofacial Center, and teaches and writes on health policy, ethics, and the sociology of medicine.

Dean John Stamm, expressing his gratitude to Mark said, "a lot of us can point to an individual who has had a very strong influence on our lives. But

few have ever honored that individual as Mark has honored Ron.

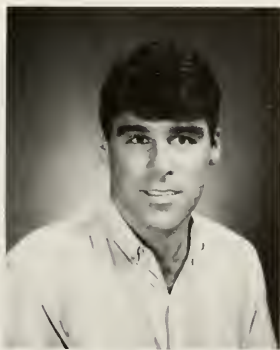

Contributions from others with an admiration for Dr. Strauss are welcomed.

Dr. James A. Harrell, Sr. of Elkin, **Dr. John S. Olmsted** of Greensboro, and **Dr. Brock Wellons** of Gastonia, have also made generous pledges to the Campaign. We are grateful to them and to all those who help support the UNC School of Dentistry with their time and money.

Two Apologies

In the last issue, Dr. B.C. Raynor (DDS '67) of Garner, was mistakenly left off the list of Steering Committee members for the Campaign for Excellence. That was certainly an oversight on our part, as BC cannot be forgotten by anyone who has ever met him!

We would like to apologize most sincerely for putting Dr. Robert E. Tormey, Jr.'s name under Mr. Zane Eargle, Jr.'s picture in the last issue. We are running both of their pictures in this issue and would like to take the opportunity to remember two young men who are missed terribly by all those who knew them. Both Bob and Zane were dental students at UNC-CH.

Dr. Robert E. Tormey, Jr.

Bob Tormey, Jr., of Lloyd Harbor, New York graduated from dental school in May of 1990 and had already begun a competitive one-year residency program at the Nassau County Medical Center. He died suddenly on July 4, 1990. Bob's classmates, family and other friends have established the Dr. Robert E. Tormey, Jr. Scholarship

Fund, which each year honors a student who best exemplifies Bob's social and moral characteristics. Dr. Dee Dee Griffith, a former classmate of Bob's, describes him as someone who "was loved by his classmates and who made Dental School easier for all of us." The Fund is now at \$14,000 and continues to grow as family and friends honor his memory with gifts each year. Two students have received the award thus far: Scott Earp and Robert Nyberg.

Zane Eargle, Jr.

Zane Eargle, Jr., a North Carolina native, died suddenly in March of 1988, his senior year in dental school. Zane received his AB from Carolina in 1984. In addition to being a staunch Tar Heel fan and hard-working student, he was involved in many church, community, and school activities. As classmate Jerry ter Avest (DDS '88) said, "Zane was a unique individual who could elicit a smile from everyone he came in contact with....he would always take the time to offer a reassuring word or pat on the back at the time you needed it most." The Zane Eargle, Jr. Scholarship Fund, established by classmates, family, and other friends is awarded to a UNC sophomore dental student and is based on involvement in community, place of worship, and dental school activities. The Fund has an endowment of over \$18,000. Past recipients of the award include Angela Broome, Claude Harris, Stan Hardesty, and Rob Moran.

For further information, please contact the Director of Development, Wendy McCorkle, at CB #7450, 104 Brauer Hall, Chapel Hill, NC 27599-7450 (919) 966-2731.

SPRING WEEKEND

Alumni Weekend 1992

It was an incredible weekend and a resounding success by all accounts. Hundreds of parents, alumni, and friends of the School gathered in Chapel Hill for updates, insights and fantastic fellowship.

While the Dental Foundation held their spring board meeting in the Health Sciences Library, the Dental Parents were meeting at the Carolina Inn for the 17th Annual Dental Parents Day program.

Other Friday activities included a tour of the Ackland Art Museum and The Eighth Annual Shankle Lecture, featuring Dr. Gerard Chiche who spoke on "Esthetics in Fixed Prosthodontics." Friday evening, faculty, friends and dignitaries gathered at the Carolina Inn to recognize and thank Bud and Linda Tarrson for their gift of 2 million dollars towards the 13 million dollar proposed teaching facility which will bear their name.

Saturday's activities began with the Annual Meeting of the Dental Alumni Association. Business included an update on the Bicentennial Campaign, an update on the School, and election of officers.

The Roy B. Harrell Symposium focused two important areas of interest. "The Clinical Practice of Periodontics: Impact on Basic Research" was presented by Dr. Steve Offenbacher. Dr. Harald Heymann presented "Current Concepts in Adhesive Dentistry."

In spite of the weather (both sleet and snow), the Class of '95 hosted the Annual School picnic at Storybook Farm. Although many who braved the

frigid temps just ate and ran, the students were seen keeping warm dancing to the live band.

The grand finale to this wonderful weekend was the All Alumni Reception and Class Reunions. Seven reunion classes celebrated their five year anniversaries at the Sheraton Imperial in the Research Triangle Park. Food, fellowship, and ACC frenzy were all part of the evening's activities.

1992-93 Dental Alumni Association Officers and Board Members Elected
Officers of UNC Dental Alumni Association for 1992-93 were elected during the April 4 annual meeting of

the Dental Alumni Association's general membership. Congratulations to John Dunn ('64), Charlotte, President, Dicky Parrish ('76), Selma, Vice President, and Randy Latta, ('75), Manteo as Secretary/Treasurer, and Brock Wellons ('71), Gastonia.

Members of the Board of Directors are elected to serve three year terms. New Directors include, Bill Claytor ('80), Richard Beavers ('79), Pamela Linker ('83), Thomas Leary ('59), and Cynthia Harper ('63).

The School is grateful to these individuals for their willingness to provide leadership to the Dental Alumni Association and the School.

Reunions 1993

Is this your reunion year?

Attention members of the Classes of 1958, 1963, 1968, 1973, 1978, 1983, 1988, your reunions are just around the corner. Mark your calendar for Saturday, April 3, 1993. Talk it up with your classmates. Make this a great reunion! Remember -- April 3, 1993!

L-R, Dr. Thomas Watts '72, Dr. Claude Drake '62, Dr. Irvin Sherman '72, and Dr. Allie Duncan, enjoy "Reunions '92".

Will Owens

Dental Hygiene Highlights

The April 4 Alumni Day activities offered two outstanding continuing education sessions. Dr. Mark J. Kutcher, Chairperson, Department of Diagnostic Sciences presented "The Side Effects of Medications, Drugs and Chemicals on the Oral Tissues," followed by Dr. James J. Crawford, Professor, Department of Endodontics, who spoke on "OSHA: Update-Highlights of Disinfection vs Drapes."

The 1992-93 officers are: Martina Goode, President; Debbie Pruett, President-Elect; Diana McKenzie, Secretary/Treasurer; and Pat Poole, Program Chairman.

Dental hygiene alumni are encouraged to support their alumni association. The \$15.00 annual dues and active participation by many alums, allows the DHAA to provide many important services that reap large returns for each member.

Dues support many student activities. The DHAA sponsors the November Career Night. This special program exposes students to traditional and alternative work settings. In December, Christmas-Exam goodie bags are provided to all dental hygiene students. Pathology books are purchased prior to the National Board Exam and given to senior students to supplement their study materials. Each April a student is selected to receive the \$1,000 Alberta Beat Dolan Scholarship. In late April, senior students are invited to Senior Night where students meet practicing clinical dental hygienists in an informal setting to allow students the opportunity to ask questions. The final support given to students comes in the form of graduation mementos to senior hygiene students.

Active members also receive many benefits. Dues help underwrite continuing education costs as well as the opportunity to fellowship with friends and classmates. The alumni association provides a direct link to the School of Dentistry, a voice to represent practicing dental hygiene professionals, and the recognition of a distinguished alumni member each year.

This year's Distinguished Alumni

Award went to Susan Cogdill, former DHAA President and advocate for the advancement of the alumni association. We congratulate Susan and encourage all UNC-CH dental hygiene graduates to join and become active in your alumni association.

Parents Conclude Successful Year

The April 3 Dental Parents Day 1992 capped off another successful year for the UNC Dental Parents. A record turnout attended workshops on stress management, managing the costs of dental education, post graduate options, allied dental education, and the latest advances in dental technology and research. During lunch students and parents were entertained by the "Extractions", an a cappella group of four dental students and one medical student. The afternoon program adjourned to the School for tours and a special question and answer session for parents of incoming students.

Outstanding leadership was provided this past year by President, Ken Samuelson of Eden. Ken, his wife Mickey, Grady and Janie Sykes of Winston-Salem, and Mary Wilson of Wilson were recognized for their years of service. Leaders for 1992-93 are: Jim Murphy, President; Frank Brooks, Vice President; and Aura Lee Wilson, Secretary.

L-R, Mr. Frank Brooks, (Vice President), Mr. Jim Murphy, (President), Mr. Ken Samuelson, (Immediate Past President).

The UNC Dental Parents depend on the voluntary efforts of interested parents. Informal committee meetings are held 2-3 times a year. A minimal investment of your time will yield tremendous returns in terms of the friendships developed and your "connectedness" with the School.

Would you like to assist in some way? Give us a call at 919-966-4563.

1992 Parents Project

Over one hundred gifts were received as part of the 1992 fundraising effort. The Parents exceeded their \$8,000 goal, netting \$8,500. The monies raised have been used to install new carpeting in the much used student lounge, sponsor a student summer research fellowship, purchase a sonic scaler for the preventive recall clinic and replace some of the chairs in the junior/senior lab. The generous contributions of over one hundred dental parents and the support of the Dental Parents Committee volunteers contribute to the tremendous success of this unique organization.

SNDA Banquet Held During Alumni Weekend

The Student National Dental Association sponsored their annual banquet on April 4 at the Durham Hilton. The featured speaker was Mrs. Hazel Brown, the first African-American to graduate from the UNC School of Dentistry. The event was well attended and enjoyed by all who participated.

Have you moved or changed your office or residence?

Don't forget to send your name and address changes to the Dental Alumni Office, 410 Brauer Hall, CB#7450, UNC School of Dentistry, Chapel Hill, NC 27599-7450.

FACULTY UPDATES

Stephen C. Bayne, Associate Professor, Operative Dentistry, received the Teacher Excellence Award from the Freshman class in the Fall of 1991. In March he was elected Councillor-At-Large to the AADR Board of Directors (1992-1995) and has been appointed to the Scientific Investigations Committee of the American Academy of Restorative Dentistry (1992-1993). Steve is Editorial Editor for the Dental Materials Journal, serves as representative from the School of Dentistry to the UNC Faculty Council (1992-1995), is School of Dentistry Faculty Chair (1991-1992) and serves on the ADA Posterior Composites Task Force (1992-1993).

Ginger L. Byrd, Clinical Assistant Professor (visiting), Dental Hygiene Program, was elected President for the Durham/Orange component of the North Carolina Dental Hygiene Association. She is completing a chapter for an upcoming dental hygiene theory book, *Dental Hygiene Theory & Practice* to be published in January, '93.

Diane C. Dilley, Associate Professor, Pediatric Dentistry, was elected to OKU in April, '92.

James C. Eagle, Jr., Clinical Associate Professor, Dental Ecology, was one of the featured clinicians at the Holiday Dental Conference in Charlotte, December 1991. For the second time Jim was awarded the Richard F. Hunt Memorial Award for outstanding dedication and excellence in teaching.

Harald O. Heymann, Chair, Operative Dentistry, was symposium speaker at the ADA/NIH sponsored "Symposium on Esthetic Restorative Materials." He was guest lecturer at the Yankee Dental Congress in Boston on "Esthetic Dentistry for the General

Practitioner." This lecture was aired on Lifetime Medical TV Network in March and April. Also Dr. Heymann was guest lecturer at the American Academy of Fixed Prosthodontics Annual Meeting in Chicago and at the University of British Columbia and the University of Washington. He presented a poster/paper at the AADR in Boston and spoke at the Harrell Symposium on "Dentin Bonding."

L. H. Hutchens, Jr., Professor, Director, Advanced Program in Periodontology, was presented a plaque by Hu-Friedy Dental Instrument Company of Chicago, Illinois, in recognition of his design of a periodontal probe that is popular with periodontists and general dentists - "UNC-15 Probe." He also was presented a certificate of recognition and a plaque of the U.S. Army Mascot "From Mike." L. H. spoke to the Advanced Dentistry Residents of the U.S. Army Dental Corp at Ft. Bragg. **Richard D. Jordan**, Chair, Prosthodontics, attended a conference in Groningen, The Netherlands, in April for those centers providing continuing education courses for the transmandibular implant used to reconstruct extremely atrophic edentulous mandibles. Dr. Jordan presented a new technique for prosthetic management.

Robert P. Kusy, Professor, Orthodontics, has submitted two inventions to the University for patenting entitled "Diamond-Like-Carbon Coating of Orthodontic Arch Wires and Brackets" and "Synthesis of Aminated Poly Vinylchloride's by Controlled Pyrolysis of Piperazine." He and colleague, John Whitley, presented two papers at the recent American Ceramic Society Meeting entitled "Seerface Modification and Characterization of Polycrystalline Alumina" (with Drs. Olga Keith and Carl R. Saunders) and "Laser Specular Reflectance and the Optical RMS Roughness of Alumina." **John B. Ludlow**, Assistant Professor, Department of Diagnostic Sciences, has been elected Chairman of Oral and Maxillofacial Radiology Section of American Association of Dental Schools for 1992-1993.

Kenneth N. May, Jr., Director of

Admissions and Student Affairs, is Third District Delegate to the North Carolina Dental Society for 1992, Secretary for the Durham/Orange County Dental Society for 1992 and President of the Omicron Kappa Upsilon.

Wendy McCorkle, Director, Office of Development, was appointed Executive Director of the Dental Foundation at the April 3, 1992 Dental Foundation Board Meeting.

Sally M. Mauriello, Associate Professor, Dental Hygiene Program, is the 1991-92 President of the Durham-Orange Dental Hygiene Component. She also was delegate to the Annual NCDHA House of Delegates at their April, 1992 meeting; delegate to the March, '92 Annual Sigma Phi Alpha Meeting in Boston; presented a poster at the AADS Meeting in Boston entitled "Pre-Admission Credentials and Dental School Performance of Dental Hygienists."

Enrique Platin, Clinical Assistant Professor, Diagnostic Sciences, completed his doctoral degree in Health Occupations Education from North Carolina State University in March, 1992. He also was appointed to the Quality Assurance Committee of the American Academy of Oral and Maxillofacial Radiology.

Rebecca R. Scruggs, Associate Professor, Dental Ecology; Coordinator, Dental Auxiliary Teacher Education, was elected Secretary of the Faculty at the School of Dentistry in May and awarded the Teaching Excellence Award by the Dental Auxiliary Teacher Education Student Association at the Annual Spurgeon Banquet.

Bill C. Terry, Lorenz Professor, Oral and Maxillofacial Surgery, attended a conference in Groningen, The Netherlands, in April for centers providing continuing education courses for the transmandibular implant used to reconstruct extremely atrophic edentulous mandibles. Dr. Terry participated in surgery demonstrating new system components.

Donald A. Tyndall, Associate Professor, Diagnostic Sciences, Director of Radiology, was elected Councillor for Scientific Affairs at the

American Academy of Oral and Maxillofacial Radiology meeting in October, 1991, in Seattle. He presented a paper at the meeting entitled "Magnetic Resonance Imaging Effects on Craniofacial Perimeter and Crown-Rump Lengths of Mice." At the March, 1992, American Association for Dental Research meeting, Dr. Tyndall presented a paper "Positional Changes of the Mandibular Condyle Assessed by 3D-CT."

Donald W. Warren, Kenan Professor/Director, UNC Craniofacial Center, received the "Honors" Award of the American Cleft Palate Craniofacial Association at its annual meeting in Portland, Oregon in May, 1992. The award was in recognition of Don's research and leadership in the field. The "Honors" of the Association is the highest expression of respect and gratitude presented to an individual whose lifetime of research, health care delivery, or leadership has advanced, significantly and uniquely, the amelioration of physical, behavioral, or socially handicapping conditions of cleft lip and palate or other craniofacial anomalies.

J. Timothy Wright, Associate Professor, Pediatric Dentistry was appointed to the National Scientific Advisory Board for the Dystrophic Epidermolysis Bullosa Research Association in 1992. He presented a course to the Hellenic Dental Society in Athens, Greece on "Special and Medically Compromised Dental Patients" on March 22, 1992. The course was presented as a 2-day review with Drs. Roberts and Christensen from Pediatric Dentistry. **John R. Zuniga**, Assistant Professor, Oral and Maxillofacial Surgery, was appointed Graduate Program Director for Oral and Maxillofacial Surgery, UNC School of Dentistry effective July, 1992. He received an American Association of Oral and Maxillofacial Surgery Foundation Research Training Award for Health Professions and Students in March, 1991.

Retirements

Donald L. Marbry, Associate Professor in the Department of Diagnostic Sciences, retired April 30, 1992. He

Dr. Donald L. Marbry

received his D.D.S. degree from the School in 1962 and a M.P.H. in Epidemiology from the School of Public Health in 1968. Dr. Marbry joined the faculty in 1968 as the Assistant Professor and Director of the Regional Medical Program, the precursor to the AHEC program. He joined the Department of Diagnostic Sciences, formerly Oral Diagnosis, in 1971 and was promoted to Associate Professor in 1976. In 1988 he served as Acting Chair for the Department.

Dr. Marbry was the director for the Preventive Dentistry/Oral Diagnosis/Treatment Planning/Oral Medicine course and taught an elective in the control of rampant caries. Retirement will include travelling with his wife, Sue, relaxing, and maybe, some tennis. There is even a rumor he may return to the School on a part-time basis.

Joe T. Wall, Associate Professor in the Department of Operative Dentistry retired May 31, 1992 after 26 years on the School of Dentistry's faculty. A 1960 graduate of the School, Dr. Wall practiced in Wilson, NC for six years before joining the Operative faculty as Assistant Professor in 1966. He was promoted to his current rank, with tenure, in 1974.

Dr. Wall's teaching responsibilities have included many of the basic technique courses in operative dentistry as well as clinical teaching. He has co-authored a chapter on the fundamentals of cavity preparation in

Dr. Joe T. Wall

The Art and Science of Operative Dentistry, the premiere operative textbook used in dental schools in the U.S. and abroad. His clinical research activities include the evaluation of composite resins materials and burnished amalgam restorations. In addition to travelling and other favorite pastime activities, we expect to see Joe and his wife, Peggy, shagging at the beach or wherever they can pick up the beat.

Resignations

Karen J. Bruggers, Assistant Professor, Department of Prosthodontics, resigned effective December 31, 1991. Dr. Bruggers has gone into private practice in Cary, NC.

Richard D. Jordan, Associate Professor and Chairperson, Department of Prosthodontics will leave the School, effective August 31, for private practice in Asheville, NC.

Sandra Madison, Associate Professor and Chairperson, Department of Endodontics will leave the School, effective August 31, for private practice in Asheville, NC.

Randall C. Shults, Research Assistant Professor, Department of Orthodontics, is leaving the School for private practice, effective June 30.

ALUMNI NOTES

1954

William F. Fowler - resigned after serving thirty years as director for the Northwestern Bank and First Union Banks. He is now assisting in the formation and development of The Old North State Bank, serving as Chairman of the Board of Directors and Chairman of the Executive Committee.

Henry O. Lineberger - is a member of the Advisory Committee to the Duke Marine Lab at Beaufort, NC. He is on the Board of Directors at the Raleigh Rescue Mission and is Chairman of the Board of Trustees of the Edenton Street United Methodist Church in Raleigh.

Linzy P. Megginson, Jr. - is still practicing four days a week. His wife is his administrative assistant and his daughter, Penny, is his dental hygienist. He has eight grandchildren - seven girls and one boy (six of them live in High Point).

A. Dwight Price - spent last one and one-half years building new 2700 square foot beach house (with one helper). He moved in September, 1991.

1955

C. Richard Conrad - is active in the Brunswick Community Band and the Dixieland Society of the Lower Cape Fear.

1956

John H. Dixon - has three grandchildren. His hobbies are golf and travel. In the Fall of 1992 his son, Robert, will attend the UNC School of Dentistry.

1957

Willard I. Herring - made a trip to Paris, Monaco, and Switzerland last year. His hobbies are fishing and boating. He spends his summers at Topsail Beach on the Sound.

June H. Rose, Jr. - has a new home and his kids are no longer on payroll.
O. Daniel Rowe - is retired after 34 years of dental practice and has enjoyed travels to France, Italy, Russia, Yugoslavia, Switzerland, Hawaiian Islands and Caribbean Islands. He has five children and four grandchildren.

1958

Walter S. O'Berry - is currently serving as Chairman of the City Planning Board for Jacksonville and is Past President of the New River Rotary Club.

Frederick S. Schnell - is adjusting to a new lifestyle of living with an arthritic hip. No more serious handball for him. What an adjustment!

1959

Don L. Allen - was elected Chairman of the Commission on Dental Education and Practice of the Federation Dentaire International at the World Dental Congress in Milan, Italy.

John M. Archer, III - two of his three children were married in 1990. He became grandfather in August, 1991 and moved into a new office in January, 1991.

David R. Beam - has one grandchild, Justin Stevenson. David and his family love to travel. In 1991 they visited hospitals in many of China's largest cities and in Hong Kong. He also enjoys his pleasure horses and race horses.

Thomas E. Leary - became a Fellow in the American College of Dentists at National Meeting in Seattle, Washington in 1991.

Riley S. Stallings, Jr. - retired on December 31, 1991.

W. Phil Webster - retired last year, is living in Florida and is the Captain of a 44-foot sail boat.

1960

Joe B. Roberson, Sr. - is Vice Chairman for the Board of Trustees of the Asheville-Buncombe Technical Community College.

1961

Curtiss W. Daughtry - is now the grandfather to Curtiss Wilson Daughtry, III.

1962

Allie H. Duncan - both daughters are married.

Joseph F. Laton - is member of the University Methodist Church and member of conference and district boards of Laity Methodist Church (NC Conference). He teaches Sunday School and does lay speaking. He is a member of the Board of Directors at the Chapel Hill Office of Branch Banking and Trust. For recreation he went white water rafting in the Colorado River through the Grand Canyon in July, 1991, and cruised the Caribbean in February, 1992.

George E. Mayo, III - was called to active duty as a Colonel in the Air Force Dental Reserve during Desert Storm. He spent 2 months at Travis AFB, California, as the assistant Base Dental Surgeon.

John H. Shell - sons, Gregory and Keith, have taken over his practices in Lenoir and Morganton, NC. He is now working part time for Keith in Morganton. John is the past president of the North Carolina Association of Orthodontists and hopes to completely retire in 1-2 years.

Bryant K. Wicker - is in solo practice. He finally got his children through college.

W. Alex Willis - Carolina, one of his three daughters was married in 1990. Alex is trustee of the Southern Association of Orthodontics. He has been helicopter skiing with John Shell in Canada and enjoys fishing and going to the beach.

1963

Sandy C. Marks, Sr. - was the first dental missionary of the Chapel Hill Presbyterian Church. He served in Zaire/Congo from 1948-1961 and was the leader in establishing the first dental school in the Congo in 1955. He was instrumental in establishing a modern dental residency program in Zaire in 1988 which is still in operation today.

Kenneth D. Owen - is serving as President of the Southern Association of Orthodontists, Chairman of the Holiday Dental Conference and sits on the Board of Directors for the Holiday Dental Conference. His son, Dale, has

begun practice of Intramural Medicine with Mecklenburg Medical Group in Charlotte.

1964

Luther T. Lineberger, III - is the Executive Assistant to Fleet Dental Officer on Staff of Commander in Chief U.S. Atlantic Fleet. His daughter, Heidi, married in July, 1991. Luther was inducted as a Fellow in the International College of Dentists in October, 1991.

Kenneth R. Phillips - is a trustee to the North Carolina Dental Society. He has been hunting in South Dakota and fishing in Alaska!

Russell J. Rogers, Jr. - attended the National ADA meeting in Seattle. He was elected Master Judge in the Antique Automobile Club of America and won two national first places with his own automobiles.

1965

John B. Hardy - is a Colonel in the US Army Reserve with thirty years service. He served in Operation Desert Shield/Storm from August, 1990 - May, 1991, stationed at Ft. Bragg.

Robert H. Owens - received his Mastership Award from the Academy of General Dentistry at convocation ceremonies in Orlando, Florida, July 1991. He and North Carolina colleagues, James B. Lemmons ('71) and Cameron H. Keels, Jr. were recognized at the July ceremony.

1967

John E. Chandler, III - expanded and renovated his office this past year. He continues to operate Chandler Foods, Inc., and distributes products to eastern seaboard states.

Pendleton G. Waldron - hobbies are model railroad and exercising. Terrell and Beatty have graduated from college. Terrell graduated from ECU in Interior Design and Beatty from NC State in Business Management and Marketing.

1968

James D. Kaley - published "Factors Related to Root Resorption in Edgewise Practice" last summer in the

Single Orthodontist with Dr. Ceib Phillips.

Charles E. Mahaffey - traveled to England, Scotland and Wales for 22 days in August, 1991. While in England his wife discovered she had some ancestors buried in Sussex - west of England, near the small village church at Pyecombe, North of Brighton. The trip will be one of their most treasured experiences.

Theodore M. Roberson - has been a faculty member since 1968. His daughter, Tiffany, will enter UNC School of Dentistry this fall.

1969

Jerry R. Clark - will marry Regina Hiser on June 27, 1992. He will be lecturing nationally at various dental schools on the topic "The Doctor - CEO" - a practice management seminar. Jerry has started a company, OMG, which does in-office practice evaluation, practice enhancement, practice associations, partnerships, and practice sales.

John D. Matheson - retired from the US Navy after twenty-two years. His last duty station was as Head of the Dental Department and Director of Residency Training in Oral and Maxillofacial Surgery. Since retirement he has joined with Dr. J. Robert Scully in the practice of oral and maxillofacial surgery in Asheville.

L-R, Drs. James Lemmons '71, Cameron Keels, and Robert Owens '65 earn AGD Mastership Award.

Joseph R. Mooring, Jr. - eldest son, Sean, will be entering UNC School of Dentistry in the Fall of 1992. He has been accepted as a member of the Woehler Research Group, a prestigious

Eastern United States dental study group. after 4 years as an associate member (guest).

1970

George A. Hook - was elected President of the Board of Directors for the Speech and Hearing Center in York County. His daughter, Sharon, is completing her last year in the dental hygiene program. His son, Seth, is a junior at the University of South Carolina and son, Kyle, will be a freshman at UNC this fall.

James T. Mitchell - likes to snow ski, play golf and travel. He has served on the Rotary, Cancer Society, Rowan Homes, American Red Cross, and Association for Retarded Citizens boards. Now he is active in the Rowan County Dental Society.

1971

Raymond S. Garrison - is Acting Chairman and Director of Resident Education, Department of Dentistry, Bowman Gray School of Medicine. He is also President of the American Association of Hospital Dentists. Chairman of the National Steering Committee for Postdoctoral Dental Matching Program and member of the Advisory Committee on General Practice Residency.

Thomas E. Howell - daughter, Morgan, graduated from UNC - Chapel Hill, lives in Chapel Hill and works for Alphatronics in R.T.P. His son, Thomas, is a senior at Western Carolina University and son, Matt, is a senior at the Model Secondary School for the Deaf in Washington, D.C. Donna Mack ('75) is his new associate.

James B. Lemmons - received his Mastership Award from the Academy of General Dentistry at convocation ceremonies in Orlando, Florida, July, 1991. He and North Carolina colleagues, Robert H. Owens ('65) and Cameron H. Keels, Jr. were recognized at the July ceremony.

Paul C. Schmidt - recently opened his 8th Florida Dental Center and employs 165 dentists and staff. He is active in Triathlons, skiing, church, Boy Scouts and travel.

Sylvester O. Smith, III - and his wife, Irma, have a new daughter, Caroline Napier, born October 14, 1991.

1972

David M. Abbott - is living with an exciting woman, Jane, and two children, Julie (14) and Thomas (10). The family travels in the U.S. and in Europe. David enjoys practicing periodontics at the Medical College of Virginia.

Gene T. Bushey - is a Lieutenant Colonel and Deputy Medical Commander in the NH Air National Guard. He is remarried to Patricia Bushey and has six children.

Jerry L. Butler - has 2-year old daughter, Brooke, and 3-month old son, Rhett. Visit him in Boone and enjoy the beautiful NC mountains.

John R. Frick - is practicing orthodontics in Chapel Hill and watching his children grow up. Thanks to David Mays, who got him hooked on fishing in dental school, John now enjoys saltwater fishing.

Steve M. Walsh - is eagerly anticipating completing the AGD Mastership requirements.

Mary A. Weiss - enjoys golfing, jogging, and skiing in Colorado and Nevada.

1973

Steven M. Adair - began a term as test constructor for Pediatric Dentistry and Orthodontics with the Joint Commission on National Dental Examinations in January, 1992.

He is Chair-elect, Pediatric Dentistry Section, American Association of Dental Schools 1991-1992. Steve was the second place awardee, American Academy of Pediatric Dentistry Educational Foundation Research Award, in the Clinical Research Category, 1991.

Larry S. Howell - has two daughters, Katie (2) and Maggie (6 months). He is in solo practice but looking for a partner. In the fall of '91 he went to Poland and Romania as part of a fact-finding missionary team from Homestead Heights Baptist Church. He gave clinics and espoused goodwill to our eastern European friends and

colleagues.

James G. Kessaris - recently married Pamela Van Meter of Hendersonville, NC. The wedding was in the Virgin Islands.

1974

Mike R. Dearstyne - retired from dental practice in 1989 after back surgery and now works with Healthco. His hobbies are collecting and restoring Indian artifacts.

John Rob Holland - formed a company, Accelerated Systems, Inc. and developed a software program and time management system called The Dental Executive. The system is used to track, prioritize and organize all jobs of the dental office team. Thirty offices in the Southeast currently use this program. John Rob was a speaker at the Florida National Dental Congress in 1991 and will be a featured speaker at the National ADA meeting in Orlando in October, 1992. His topic for the ADA will be "Disney and Dentistry."

William C. James - is Chairman, American Academy of Periodontology Committee on Dental Care Programs 1990-1992. He is President Elect of the North Carolina Society of Periodontists, Third District Representative of the American Academy of Periodontology Board of Trustees and Dental Insurance Workshop spokesperson.

Earl H. Lever, Jr. - received AGD Fellowship Award at the national meeting in Orlando, Florida in July, 1991.

1975

John D. Ellington - is the 1991-1993 President of the NCAAU.

Doug F. DeGroote - and his daughter, Jennie (17), a senior in high school, made a missionary trip to Ahsus, Honduras last December. They found the Miskita Indians poor but happy, and appreciative of the care received. The natives are gentle souls now, but were feared warriors, unconquerable by the Spaniards, in the 1500-1600's. The trip was worth every penny to Doug when Jennie said, "I like it down here. I don't feel any pressure to run to the mall."

Hal H. Smith, Jr. - is President-elect

for the Durham-Orange Dental Society and President-elect for the NC Dental Society Third District. In January 1992 he completed Continuum II at the L.D. Pankey Institute. Hal became a father in April, 1990, to a daughter, Jere-Ana Catherine.

1976

William L. Chambers - (Pediatric Dentistry '79) is Buncombe County Dental Society President, NC-ASDC Secretary-Treasurer, Chairman of the State Committee for Mouthguards/Mouth Protection Program and stepped down as President of the North Carolina Society of Pediatric Dentistry.

Danny W. Qualliotine - moved to a new office location at 107 Oakmont Drive, Greenville, in October, 1991.

1977

Willard B. Blair - currently is the NC State Barefoot Waterski champion. His son, Jeff, is the NC State Barefoot Waterski champion (Boys Division), SC State Barefoot Waterski Champion (Boys Division), and ranked 12th nationally in Barefoot Waterskiing (Boys Division).

Samuel M. Byrd - is a general dentist for R.J.R. Nabisco. He joins 20 dentists in the Group Dental Plan who treat employees and dependents of R.J.R. Nabisco. Sam has two children, Elizabeth (9) and Worth (5 1/2).

Lee C. Currin - has two children, Kimberly (12) and Emily (7). He enjoys sailing and sailboat racing.

Wiley J. Faircloth - moved to Yorktown, VA in 1990 after he completed an OMFS Residency at David Grant USAF Medical Center, Travis, AFB, California. Currently, he serves as Chief of Oral and Maxillofacial Surgery at the 1st Tactical Fighter Wing Hospital, Langley AFB, Virginia and is Tactical Air Command Consultant in his specialty to the Surgeon General of the Air Force. He and wife, Pam, have two daughters, Amanda (13) and Emily (10). They loved California, skiing at Lake Tahoe, and annual vacations to Hawaii. His greatest "high" was climbing Mount Ranier in Washington state. In November, 1991, he returned

to Chapel Hill for the first time since dental school to attend the rain-soaked Clemson game.

John S. Olmsted - served as Program Chairperson for the American Association of Endodontics 49th Annual Session in San Francisco this past May.

Richard K. Ohrbach (Orr) - got married and changed his name in 1984 in San Antonio, Texas. He sold his house and moved to Los Angeles in 1985, where he spent one year doing a clinical post-doc in pain management at UCLA. In 1986 Orr moved to Buffalo, received an MS in 1989, began a PhD program, bought a house and received a Visiting Research Scholar Award to a dental school in Tokyo, Japan, where he and Laura spent an interesting month.

1978

Louis D. Anderson (Orthodontics) - recently received the prestigious A.P. Westfall Award from the Charles H. Tweed Orthodontic Study Group. This award is presented at the group's annual meeting, to the orthodontist whose treated cases are deemed the most outstanding.

Ross W. Nash - gave seminars on cosmetic dentistry techniques in Melbourne, Adelaide and Sidney this past fall. The gracious dentists in Australia made it a wonderful trip for Ross.

1979

Zeno L. Edwards, III - serves as President of the Fifth District Dental Society.

Horace Harris - is a commissioned officer with the US Public Health Service. He is assigned to the Tri County Community Health Center, Newton Grove, as Dental Director and is pursuing a Masters in Public Health through the School of Public Health at UNC. His oldest daughter, Janet, a freshman at Pembroke State University was the recipient of the NASA and Admission Scholarship and is a Chancellor's Scholar. The Harris' are happy to be back in NC after a 4-year assignment in Arkansas.

Thomas B. Long - was married in May, 1992.

William M. Montgomery - is

immediate Past President of the Greater Portland Dental Society.

1980

Richard D. Alston - has associated with Ken Miller (DDS '72, Ortho '74) to form Orthodontic Associates of Rocky Mount, Roanoke Rapids and Tarboro, NC.

Sarah A. Brown - married Mark A. Kedzierski October 26, 1991. They live in Baltimore and practice general dentistry with the Park Dental Group at Wyman Park Medical Center.

David J. Harsant - completed AGD Fellowship in the summer of 1991.

David E. Paquette (Pediatric Dentistry '83) - presented a paper on "Elimination of Susceptibility Bias in Orthodontic Clinical Research" to ARMC O Insiders Group meeting in Yosemite, California.

1981

Carl E. Bowser - is President of the York County Dental Society. Carl is now occupying new office space at 2161 East Market Street, York, PA.

Barbara L. Ford - recently traveled to Wyoming's Yellowstone Park for cross-country skiing and saw plenty of bison, elk and a few coyotes. She still participates in bicycle events for the fun of it and to stay in shape.

1982

Laura D. Braswell - married DeFord Smith, III in March, 1991.

Shawn T. Engebretsen - is in private practice in oral and maxillofacial surgery. He has three children - Erik (6), Travis (3) and Kristin, born December 28, 1991.

Jeffery B. Price - has two children, Katherine (5) and Hough (1). Last year he started the Pankey Institute Continuum.

Warren M. Rich - and wife have three children, Josiah (5), Elise (4) and Micah (1). For the last five years they have been living and practicing in Kijabe, Kenya. Warren is the only dentist at the medical center and is responsible for the care of nationals, missionaries and their children. The practice is more varied than the US. They are preparing to start a residency program for Kenyan dentists.

Robert L. Richeson - says thanks to his training at UNC his practice is growing by leaps and bounds. He is looking for a dental hygienist to join his practice who wants to live in the most beautiful part of the state - Franklin, NC.

1983

Doris B. Brown - has an excellent hygienist, her husband, Henry, who has been practicing with her for two years. Says Doris, "Hygiene school was his idea; if nothing else, he believes in flossing now."

W. Kelly Harris - and wife, Leigh Edmunds Harris, (DATE '81), announce the birth of their daughter, Jessica Wade Harris, born January 6, 1992.

Jack D. King - is working with the Center for Professional Development presenting the Profitability Management Seminar throughout the Southeast. The seminar deals with practicing dentistry in a fashion that allows dentists to do their best work and benefit both the patient and the dental team.

W. Donald Luper - traveled to India in June for a 2-week mission. He will open his endodontic practice in mid-August.

P. Jeffrey Phillippi - and wife, Elizabeth, had twin boys, Curtis and Daniel, born December 9, 1991.

Charles N. Stanfield - has a new son, Charles W., born December 16, 1991.

Robert H. Watson, Jr. - purchased the practice of Bob Watson on December 31, 1991.

1984

J. Steven Baker - recently purchased a new home. He has two associates and built his own office building in 1989. His hobby is deejaying.

C. Scott Davenport - and his wife, Rachel, announce the birth of their son, Christopher Scott, born January 21, 1992.

John W. Dean, III - is Assistant Professor, Department of Periodontology at the College of Dentistry, University of Tennessee in Memphis.

Hana Heling - took a course in Acupuncture at the China Academy of

Traditional Medicine, Beijing, China in 1990. Ilana is director of post graduate training in Endodontics, Department of Endodontics, Hebrew University - Hadassah, School of Dental Medicine, Jerusalem, Israel.

Richard C. Redding - promoted to Lieutenant Commander in Navy reserves. He and his wife, Genie, visited London last summer. The family enjoyed a cruise to the Bahamas in March.

Henry S. Zaytoun, Jr. - (Orthodontic '87) was named North Carolina's representative to the Future Directions Committee at the Southern Association of Orthodontists.

1985

Timothy R. Burgiss - announces the birth of his daughter, Margaret Drew, born March 27, 1991.

Beth F. Clark (Dental Hygiene) works in Raleigh for Dr. Mike Williams and was expecting her first child in March, 1992.

J. Harvey Ham - moved into their new home in August, 1991. He and Gail enjoy decorating and landscaping the home.

Robert Machlus - is a partner in the practice in which he has been working for several years. This past year he won a couple of amateur golf tournaments.

LaRosa Pinnix-Bailey - is in private practice in Burlington, NC. Has daughter, Erica (3) and son, Brian Bernard, born in October, 1991.

1986

Mark S. Farris - recently purchased a house five blocks from the beach. This one will be a rental - anyone want to move to Paradise? The practice is booming and he is working "hard on the railroad." He is still thinking about an associate if anyone is interested. Still single, very happy and his tennis game is strong.

Lois A. Knauff - and husband, Mike Maness, announce the birth of their son, Philip David Maness, born February 15, 1992.

Mark L. Meyer - is a part-time Assistant Professor at the UNC Department of Pediatric Dentistry. He is part-time clinical faculty at the

Bowman Gray School of Medicine, Department of Dentistry. He is also on the hospital staff at Forsyth Memorial Hospital and is part owner of the dental supply company called BFH Dental Supplies.

David H. Moore - married Angela Beckedorf in 1991. Angela is a UNC graduate and has her own exercise/nutrition consulting company called FitLife in Charlotte. They honeymooned in Germany and Austria where they enjoyed great scenery, snow and skiing. David will purchase Dr. John Archer's ('59) practice in Charlotte in July, 1992.

1987

Karen D. Barwick - is the Clinical Dentist for the Alamance Community College Dental Assisting Program. She is President of the Alamance Caswell Dental Society and Vice President of the 3rd District Dental Society.

Jay A. Black - was stationed two years on USS Saratoga followed by two years with the second 2D Dental Battalion, Camp Lejeune NC. He has been selected to rank of commander and is now stationed for three years at the Naval Air Station Oceana in Virginia Beach, Virginia. His son, Kenneth, was born in June, 1990.

Todd E. Crowley - completed training in oral and maxillofacial surgery at the Medical College of Virginia in July, 1991 and is practicing oral and maxillofacial surgery in Charlotte, NC.

Patrick J. Dolan - has a new daughter, Katherine Bridget (Kate), born October 15, 1991, in Fairfax, Virginia. She weighed 7 lbs. and 12 ounces with blue eyes and light brown hair.

John R. Hoskins, IV - has been in solo practice for five years in Asheville.

Suzanne T. Posner - traveled to Kenya, Uganda, Zaire, Tanzania, and Thailand in 1991 and Malaysia, Singapore, and Spain in 1992.

Gary D. Rusch-Behrend - works with an endodontist at a shore-based clinic close to home and hopes to specialize in endodontics. He has taken a number of family vacations with the twins, without loss of sanity, including a week at Disneyworld.

Anita Stokes Sreater

Annetta Stokes Sreater (BSDH '87, MS D.A.T.E. '90) - has been appointed Assistant Professor, School of Dental Hygiene at the University of Manitoba in Winnipeg. As the first year dental hygiene coordinator, she teaches Dental Hygiene Care I and coordinates the pre-clinical laboratory. Her husband, Eric Sreater, is a wide receiver for the Winnipeg Blue Bombers of the Canadian Football League.

Wendy D. Willoughby - has been in solo practice for three years. She and husband, Cameron Smail, have one son, Merritt W. Smail, born January 14, 1992.

1988

Steven B. Andreus - was awarded first place for his presentation "Radiovisography. A New Image in Dentistry" in Clinical Applications Research in the Master Clinicians Program at the ADA meeting in Seattle.

Joel A. Gentry - is pleased to announce the birth of his son, Austin Daniel, born November 30, 1991.

John S. Kitzmiller, III - is stationed in Landsluis, Germany and has two more years at that duty station. Last July he was in Zimbabwe, Africa for two weeks caring for residents of some poor towns outside of Zimbabwe. It shed a new light on his world perspective.

Gregory L. Richardson - opened his

Wilmington practice in June, 1991.
Arthur (Skip) R. Schramm, III, purchased the practice of William B. Atkinson in Pineville, NC. He and his wife, Janat, (DH '88), live in Charlotte.
Robert M. Wilkinson - married Montine Pfohl, October 26, 1991.

1989

Marcella D. Clifton - opened new practice February 24, 1992, at 4601 Western Blvd., Raleigh, NC.
John E. Iseman - will open new office in Myrtle Beach, SC, in July. His wife, Susan, is office manager and John says it is great to be at the beach!
Evan N. Miller - joined the practice of Camp ('64), Myers ('66), Chadwick ('73) and Wheeler ('83) in Charlotte on October 7, 1991.

Stuart O. Miller - recently returned from overseas after spending the spring and summer involved in Operation Desert Storm and the evacuation of US dependents from the Philippines following the eruption of Mt. Pinatubo last June. He is looking forward to living and practicing in the San Francisco Bay area during this coming year.

Lauren M. Rimland - and husband are living in the "Big Apple."

Karl D. Smith - recently returned from a 3-month trip to Australia, New Zealand, Fiji, and Hawaii. He enjoyed the beautiful scenery, the nice people, and the good food.

Barbara L. Traina - is currently taking a "break" from practice and expecting first child in June, 1992. She may be relocating to the Atlanta, Georgia area within the next year.

1990

Dagoberto Zapatero - and wife, Leslie, announce the birth of their daughter, Carolina Reen Zapatero (Corey), on April 6, 1992.

1991

M. Johnson Hagood, III - is in private practice in Virginia Beach when not surfing. He plans to marry Dana Kiser in October, 1992.

Paul E. Hood - is working on the Blackfeet Indian Reservation in Northwest Montana. In November he visited with Linda Tolar (DDS '91)

who is working on the Yakima Indian Reservation in Washington State. Paul is working with four other dentists in a 10-chair, 12 assistant public health clinic and serves more than 12,000 Blackfeet Indians. He is enjoying the new environment and is adapting to the weather change. In October the temperature dropped to 20 degrees.

Linda A. Tolar - works as an area dentist for the USPHS Indian Health Service and is assigned to the Ya Kima Indian Health Center in Toppenish, Washington. Since arriving in Washington she has added cross country skiing and snowshoeing to her other interests of hiking, rafting, camping and photography.

In Memoriam

Carnie C. Gooding, DDS '54, died on September 2, 1992. Dr. Gooding was born April 27, 1920 and was a member of the first class to graduate from the UNC School of Dentistry. He lived and practiced in Havelock, NC.

Linda Marie Kelly, BSDH '77, died August 11 1990.

Let us know!

Attending the 133rd Annual Session of the ADA?

Join us in the Magic Kingdom
 October 18, 1992

You are invited to the UNC Dental Alumni Reception to be held during the ADA's 133rd Annual Session in Orlando. The School is pleased to host this get-together for alumni, spouses and friends.

Sunday
 October 18, 1992
 6:30 to 8:00 PM.
 Walt Disney World Swan

Dean John Stamm will be there to welcome you. Come join him and other UNC alumni in Orlando.

REUNIONS

CLASS

Members of the Classes of 1957, 1962, 1967, 1972, 1977, 1982, 1987 enjoyed a brief journey down memory lane during the 1992 class reunions. The Sheraton Imperial at the Research Triangle Park provided the perfect setting for a fantastic evening.

GRADUATE

Graduates of 1992

The following were honored with certificates or diplomas at the School of Dentistry Thirty-Ninth Honors Convocation, May 10, 1992. Congratulations and welcome to the profession of dentistry.

Certificate in Dental Assisting

Norma J. Chandler, Woodbridge, VA
Rita A. Goforth, Pittsboro, NC
Andrea L. Hall, Hillsborough, NC
Tammy A. Johnson, Sanford, NC
Wendy B. Lamm, Sanford, NC
Kelly L. Madren, Chapel Hill, NC
Kimberly L. Marshall, Durham, NC
Kerry L. Maskell, Durham, NC
Carolyn C. Newman, Hillsborough, NC
Anna L. Parker, Chapel Hill, NC
Andrea L. Perkins, Castle Hayne, NC
Lisa L. Scott, Durham, NC
Vivian D. Starkey, Chapel Hill, NC
Aretha R. Thorpe, Oxford, NC
Christy L. Woznicki, Durham, NC

Dental Assisting Specialty Program

Elizabeth R. Douan (Oral Surgery)
 Charleston, SC
Donna M. Poole (Orthodontics)
 McAdenville, NC

Bachelor of Science in Dental Hygiene

Lisa Y. Bailey, Camden, NJ
Wendy D. Barlett, Asheville, NC
Lisa R. Boyce, Monroe, NC
Leslie A. Deaton, Roanoke Rapids, NC
Kimberly E. Efford, Concord, NC
Sarah E. High, Fayetteville, NC
Mindy L. Morgan, Stanfield, NC
Keisha L. Peaks, East Orange, NJ
Janet L. Robertson, Chapel Hill, NC
Nancy S. Royall, North Wilkesboro, NC

Certificate in Dental Hygiene

Charmaine E. Arthur, Raleigh, NC

L-R Ms. Paula Sumner and DH graduate Hanne Weidmann.

Tara D. Dowd, West End, NC
Susan E. Littlejohn, Lenoir, NC
Heather L. Oberlander, Lancaster, NC
Cynthia J. Teasley, Durham, NC
Leigh D. Tyner, Carthage, NC
Stacy L. Waddell, West Jefferson, NC
Hanne E. Weidmann, Pittsboro, NC
April D. Wheelous, Virginia Beach, VA
Amette D. Williams, East Bend, NC
Sharon E. Williams, Raleigh, NC

Master of Science Degree

Dental Auxiliary Teacher Education
Ethel Campbell, Pittsboro, NC
 (conferred December, 1990)
Yasmin Salim, Karachi, Pakistan
 (conferred December, 1991)
Barbara J. Stubbs, Jacksonville, FL

Endodontics

Les Kravitz, Chapel Hill, NC
 (conferred August 1991)

Orthodontics

Dennis Ross, Greenville, NC
 (conferred August, 1991)
Susan Allen, Louisville, KY
 (conferred August, 1991)
Greg Richardson, Raleigh, NC
 (conferred August, 1991)
Robert Sieber, Allschwil, Switzerland
 (conferred August, 1991)

Pediatric Dentistry

Dorothy Pang, Hong Kong
 (conferred August, 1991)
George Vadiakas, Athens, Greece
 (conferred August, 1991)

Prosthodontics

Konstantinos Lianos, Athens, Greece
 (conferred August 1991)

Oral and Maxillofacial Surgery

Ronald Gaitros, Chicago, IL
 (conferred August, 1991)

Doctor of Dental Surgery

Kevin B. Atkins, Fayetteville, NC
Jerry G. Bayliff, Jr., Burlington, NC
Nathan D. Bell, Cameron, NC
Jon M. Bellamy, Candler, NC
Kenneth M. Black, Bessemer City, NC
Hollie R. Blevins, Greensboro, NC
Anthony S. Bowles, Chapel Hill, NC
Kenneth E. Chapman, Taylorsville, NC
Theodore G. Clark, Yadkinville, NC
T. Lenise Clifton, Carrboro, NC
Dexter C. Coleman, Carrboro, NC
David G. Collins, Morgantown, WV
Lillian M. Conner, Princeton, WV
Lydia N. Davis, Comer, GA
Brett A. Dormer, Hillsborough, NC
Robin C. Edwards, Kinston, NC
Timothy E. Elder, Chevy Chase, MD
Cheryl G. Freeman, Hillsborough, NC
Bradley S. Frey, Grand Blanc, MI
Stacey A. Greene, Charlotte, NC
Jodi R. Hamilton, Clayton, NC
James J. Harding, Blowing Rock, NC
Claude F. Harris, Raleigh, NC
John M. Helton, Mt. Airy, NC
Simbarashe Jaravaza, Zimbabwe
Alfred C. Johnson, Jr., Cramerton, NC
Jeffrey S. Kearney, Goldsboro, NC
Michael J. Kuzma, Cape May, NJ

O F 1992

Dean Stamm presents diploma to Nathan Bell.

Teresa A. Long, Harrells, NC
Ronnie A. Lowery, Maxton, NC
Keith W. Mann, Louisville, KY
John S. Minor, Durham, NC
Steven G. Mohorn, Greensboro, NC
Eric T. Moskowitz, Greensboro, NC
Robert E. Nyberg, Nesconset, NY
Jamel D. Odeh, Hillsborough, NC
Lee E. Oppenheimer, Miami, FL
Travis T. Paige, Durham, NC
Shivani K. Pandit, Asheboro, NC
Jorey E. Parkhurst, Greensboro, NC
Charles A. Porter, Charlotte, NC
Robert A. Prevette, Chapel Hill, NC
James A. Ray, Green Mountain, NC
Richard T. Risinger, Glastonbury, CT
Pamela Rouse, Snow Hill, NC
Angela C. Ruff, Fayetteville, NC
Michael J. Ryan, Wilmington, DE
Rozita Safavizadeh, Tehran, Iran
Allen D. Samuelson, Eden, NC
Axon D. Sholar, Wallace, NC
Alan B. Sykes, Winston-Salem, NC
Cheryl M. Trentini, Tallahassee, FL*
Christopher J. Trentini, Franklin, PA
Britt E. Visser, Virginia Beach, VA
Robert E. Walker, Chapel Hill, NC

Moses Watson III, Laurinburg, NC
Kenneth M. Welborne, Charlotte, NC
Kristen W. Welborne, Charlotte, NC
David N. Wilson, Bailey, NC
Hope Xenakis, Asheville, NC
Jane M. Young, Fairview, PA

The pre-processional assembly.

Pre-graduation adjustments for Teresa Long.

Graduation 1992

A brilliant sun radiating from a perfect Carolina blue sky. Family and friends gathered to celebrate the culmination of four years of intense study mixed with a good bit of perseverance. It was a great day, it was Mother's Day, it was Graduation Day 1992.

The Thirty-Ninth Honors Convocation began with words of welcome from Dean John Stamm followed by the invocation given by Dr. James Eagle, Senior Class President, Mr. Britt Visser reminisced a bit about the four years the Class of 1992 had just completed. He reflected on the collective experience which, for many, yielded strong bonds of friendship, mutual respect, and an appreciation for the demands of the profession they had chosen.

The Convocation Address was delivered by Dr. Wallace V. Mann Jr., DDS and Provost at the University of Louisville and father of Mr. Keith W. Mann, 1992 candidate for the degree of Doctor of Dental Surgery. Dr. Mann's message, "Late Year Thoughts on Listening, Thinking, and Caring" offered common sense solutions to everyday problems. He reminded the graduates not to lose sight of the human component when attempting to manage life's many challenges.

Ninety-eight students walked across the stage to receive the degrees and certificates they had earned. Ms. Joyce Jenzano, Director of the Allied Dental

Education Program, presented Dental Assisting Certificates to seventeen candidates, Certificates in Dental Hygiene to eleven candidates and Bachelor of Science Degree in Dental Hygiene to ten candidates. Ms. Jenzano also presented one candidate for the Master of Science Degree in Dental Auxiliary Teacher Education. Dr. Kenneth N. May, Jr., Acting Assistant Dean for Academic Affairs and Director of Admissions and Student Affairs, presented the sixty candidates for the Doctor of Dental Surgery Degree. The doctoral hoods were placed on the D.D.S. candidates by Dr. B. Ed Kanoy and Dr. Matthew T. Wood.

The traditional post-commencement reception was held for the graduates and their families and friends on the lawn of Brauer Hall. Smiles were abundant as everyone shared in the

joy of the moment as congratulations were bestowed on the newly conferred D.D.S.s, Dental Assistants and Dental Hygienists. It was truly a time to "Hark the sound!"

Post-Graduation Plans for the Class of '92

What will the Class of 1992 do after graduation? The following provides a summary of post graduation plans.

Navy:	1
Army:	(1GPR) 2
Air Force:	(GPR) 1
Radiology:	1
Endodontics:	1
Periodontics:	1
Orthodontics:	4
Private Practice	35
Pediatric Dentistry:	1
Indian Health Service:	1
General Practice Residency:	8
Advanced Education in General Dentistry:	3

Cover and Issue

While dentistry is speeding into the 21st century, 4th year dental student Kim Pryzgod and dental assistant Tyra Aiken (pictured on the cover) work within the constraints of our 40 year-old clinical teaching facility. The feature on page 3, will help you understand the urgent need for a new clinical teaching building. Also in this issue, you will meet the Class of 1996, the new

Assistant Dean for Academic Affairs, the new faculty, and some very special staff people. Don't forget to read about the happenings of your classmates in Alumni Notes. The Honor Roll gratefully acknowledges the contributions received between July 1991 to June 1992.

DEAN'S

c o m m e n t s

"Dentistry became a true profession when it found its rightful place in the university." The wisdom of Sir Rushton's remark has stood the test of time, just as its central idea has been fervently embraced by other occupational groups, including school teachers and nurses, seeking to attain the standing of true professions. The strength of the law and medical professions is intimately linked to their distinguished, centuries-long presence in the university.

In North Carolina, the practicing dental profession and the School of Dentistry have both flourished over the last 42 years, confirming Rushton's principle of the interdependence of ethical practice and university education. It is with this thought in mind that the UNC School of Dentistry, through the Dental Foundation of North Carolina, is embarking on a critically important fund-raising initiative -- *The Campaign for Excellence*.

Why is this *Campaign* so essential for dentistry and dental education? In a phrase, a successful *Campaign* is imperative if we hope to assure a strong, long-term future for North Carolina dental professionals who will be practicing the remainder of this decade and well into the next century. Dentistry and dental education are facing enormous economic pressures and significant structural changes. Dental school closings have become public news and at least two state legislatures are currently considering closures. The most far reaching and profound issue faced by public dental education is the declining financial support from state legislatures to universities. This is having a serious effect on the University of North

Dean John W. Stamm

Carolina School of Dentistry. Though a public institution, the School receives only 50 percent of its budget from the State. This figure is well below the national average for public schools and we are at serious risk that our State funding will decline even further. Non-state funding is critical to the future of the School. It is here where the *Campaign for Excellence* can make the crucial difference.

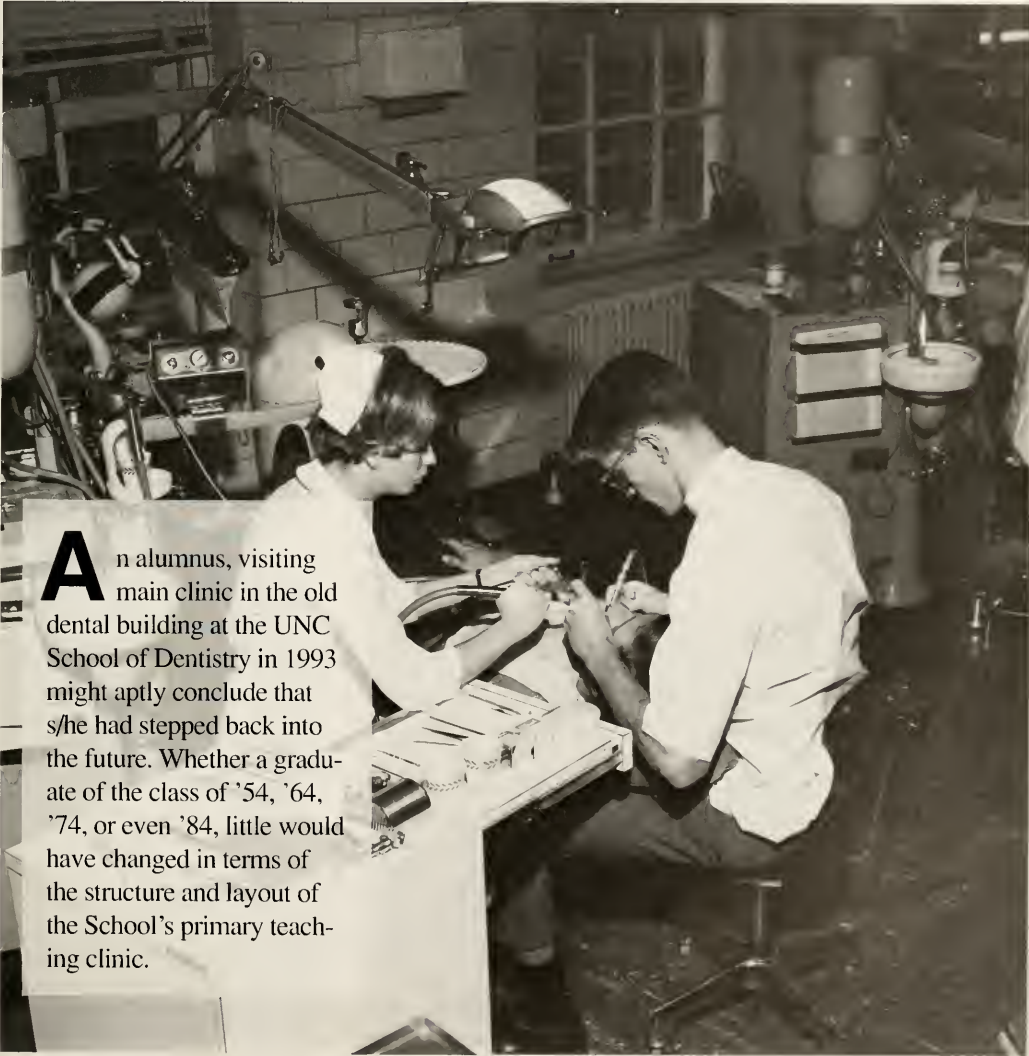

Working together we can secure the future of North Carolina's only dental school. The dental faculty is working tremendously hard to maintain the School's standards and reputation in spite of the many obstacles. Practitioners around the state are helping us fill our classes with North Carolina's best and brightest students. While maintaining a constant class size, the number of in-state applications has increased 70 percent and overall applications have increased 25 percent since 1990. The School has increased the emphasis on clinical education and graduates now leave the School with even more quality clinical experience under their belts. Simultaneously, the

School has sustained its rank in the top echelon of research-oriented institutions, contributing new knowledge for clinical and fundamental applications. The School continues to serve North Carolina dental professionals with one of the most active and cost-effective continuing dental education/ AHEC programs in the country. Most of that service is delivered locally, in the various communities throughout the state. A successful campaign will enable the School to guarantee excellence in all facets of dentistry.

What are the goals of the *Campaign*? With a target of \$6 million, the goals for the *Campaign* are to support: (1) a new clinical teaching building, (2) two endowed professorships, and (3) endowments for student scholarships and loans. The new clinical building is of the utmost necessity, and we hope that the January solicitation of all North Carolina dentists, out-of-state alumni, and the dental hygiene alumni will garner \$2 million in support towards the building. All gifts donated to the School will be deposited with the Dental Foundation of North Carolina and will be simultaneously credited to the UNC Bicentennial Campaign.

Campaigns are identified with politics, large scale warfare and sailboat regattas. In all cases the successful campaign is one that has a flawlessly executed strategic plan and is embraced by its supporters. With the leadership of Dr. James Harrell, Sr., his Steering Committee, the five district directors, and, more than 250 volunteer dental professionals, all the necessary elements are in place. With your continuing support we can be successful in securing a better future for dentistry in North Carolina -- and in reconfirming Rushton's insight once again.

BACK TO THE FUTURE

An alumnus, visiting main clinic in the old dental building at the UNC School of Dentistry in 1993 might aptly conclude that s/he had stepped back into the future. Whether a graduate of the class of '54, '64, '74, or even '84, little would have changed in terms of the structure and layout of the School's primary teaching clinic.

Fourth year student Stephanie Sabatini works with Tyra Aikens in "main" clinic.

Clinic attire, with masks, gloves, protective eyewear, gowns, and plastic draped clinic equipment, give the illusion of a futuristic milieu. While attire, equipment, techniques, and many procedures have been updated in response to changing times, the old clinic hasn't changed. Efforts to modernize the teaching facility over the years have been piecemeal and inadequate. We are teaching dentistry for the 21st century in a facility designed for the 1950s.

This is not to criticize or diminish the vision of the School's founders. Who among them could have anticipated the tremendous knowledge and technology explosion that was to ensue over the next 40 years. The problem of inadequate space was apparent with the admission of the second class in 1951, and has burgeoned ever since as the School has broadened its focus.

What will the class of 1993 remember in the year 2003, when they reflect on their four years in dental school, 10 years after graduation? Will they remember how in 1992 the School of

Dentistry was struggling to orchestrate its curriculum and research dreams in spite of outdated and cramped facilities? Will they remember that 1992 was the year of immense pressure from OSHA to comply with new federal guidelines for infection control, chemical hazard management, and guaranteed access regulations? Will they remember that the Dean, the faculty, and the staff sought vigilantly for a ray of optimism among the financial constraints of changing state budgets, diminishing federal research dollars, and the fall out from an enormous national debt?

Perhaps they will remember a typical day in the fall of 1992, when at 8 a.m., they along with other DDS, dental hygiene and dental assisting students, tried to locate lecture hall re-assignments due to various renovation projects. Workers removed asbestos, aging ceiling tiles, lead soldered plumbing, wall tiles and cinderblocks. The sound of jackhammers disrupted lectures and labs and forced faculty members to find quieter places to conduct classes. Inconvenience was the status quo. The dental complex was

bursting at the seams and every square foot was precious.

Space was at a premium; nooks, crannies, and storage areas were being converted for programmatic or patient care use. The staff lost their lounge which became the Learning Resources Center (LRC); the space vacated by LRC became the Craniofacial Center; the Craniofacial Center became research space and the list went on.

In the School, there were only two classrooms that could seat an entire DDS class of 75 without adding chairs to the walkways. It was impossible for both Juniors and Seniors to meet when important clinic issues needed to be discussed. Information had to be presented separately to the classes and neither group heard the questions and concerns of the other.

Dental research at the University of North Carolina, once the envy of dental institutions world-wide, suffered the same space problem as the teaching program. Researchers and technicians needed every inch of space. Bulky items like refrigerators were relegated to the halls to make room for the people conducting the research.

On a typical day in 1992, dental assistants in the clinics prepared for first patients as they picked up sterilized instruments that were to be transported from the ground floor central sterilization facility to points in every corner of the dental complex. Instruments travelled through hallways, departments, waiting rooms and research areas in order to get to the final patient treatment destination. Students cued up at the main clinic dispensary window to check out the instruments needed for clinic. Students who couldn't squeeze into the crowded area around the window were forced to line up along the wall and overflow into the emergency exit space near the dispensary.

The students will also remember what it was like for patients coming to the School. "User friendly" was never a phrase used to describe the Dental School. The battle for parking not withstanding, once patients entered the dental complex they faced the challenge of locating their assigned clinic. Brauer Hall, the Old Dental Building, the Dental Office Building and the Dental

Students wait patiently to pick up instruments.

Research Center are all connected but not integrated. Patients were often confused by corridors which served as connecting walkways, waiting rooms, storage places, copy centers, and extensions of departmental offices.

New patients encountered a maze when they attempted to find the Admissions/Screening Clinic. The patient entered Brauer Hall and proceeded to the elevator. Since the lobby floor was called ground floor, they had to remember to press the button for floor one. They exited the elevator on the first floor, and after taking a series of halls and turns, they finally entered the Old Dental Building where they would find the Admissions/Screening Clinic. When the patient returned for treatment planning it was scheduled in a different building on a different floor. When they returned for the first actual treatment appointment they were asked to find yet another clinic in another area.

In spite of the obstacles, the patients were understanding, the faculty supportive, and the students tolerant as they struggled to hurdle the barriers. The

School knew where it wanted to be and it was making every effort to get there.

The School of Dentistry's *Campaign for Excellence* was the turning point for restructuring and rebuilding a new system of dental education at the University of North Carolina. It provided the impetus to formalize the commitment to build a new clinical teaching building that would launch the School into the next century. The structure, to be named "Tarrson Hall" due to the generous contribution of \$2 million from Bud and Linda Tarrson, became the bridge to the future. This bridge would enhance every aspect of the School's mission:

teaching, research, patient care and service.

Looking forward is the hope that keeps all of us going. Every now and then it is important to look back to remind us what things used to be like. Looking "back to the future", it is clear the School doesn't face a space-age problem. It faces a problem of age and space: a 40 year old facility, inadequate to meet the needs of dental education in the 21st century. A new teaching facility will enhance patient access, provide adequate space for student clinics, and allow the University of North Carolina School of Dentistry to remain a leader in dental education.

Research is a vital link to the teaching programs, to patient care, and to service through continuing education to the practitioners. A new clinical teaching facility will allow the vacated clinical space in the old dental building to be easily converted into research laboratories. This will mean that for the first time in 20 years, the Dental Research Center can expand.

The enthusiasm and generosity expressed during the initial phase of the *Campaign for Excellence* has put in place the "bridge" to the 21st century. This bridge to the future will ensure the School of Dentistry's tradition of quality clinical teaching, excellence in academic instruction, distinction in dental research and most importantly, commitment to the oral health of the people of North Carolina.

Tarrson Hall will house the much needed clinical teaching facility.

The School of Dentistry Embarks on a Curriculum for the 21st Century.

Just as the School of Dentistry is in the midst of its bicentennial campaign, targeting a new clinical teaching building and at the beginning of a new research strategy, it is also about to embark on the next stage of its educational program development. The stewardship of the School's educational plan has been transferred to its newest assistant dean, Ronald J. Hunt, DDS, MS who was selected after a long and arduous national search. Hunt has served the citizens of North Carolina and the School of Dentistry in several key capacities over the past decade (see insert). He now assumes the very important responsibilities of the Assistant Dean for Academic Affairs.

There are three significant challenges for this position: programmatic modernization, facilities modernization during a time of dwindling state resources, and leadership as the curriculum responds to changing priorities for the profession.

At a seminar presented to the faculty, staff, and students, Hunt emphasized that curricula must be dynamic and, above all, must be faculty and student driven. He pledged to provide direction, develop a responsible infrastructure, and facilitate all academic activities for the School.

He also stressed that future dental curricula must be founded in basic science, be flexible, make greater use of new technology, embrace the changes for safer clinical practice, emphasize total patient care, and provide options for additional

training. This vision is intimately linked to the School's campaign for a new clinical teaching building and strengthening the basic science research initiatives.

A frequent concern, voiced by faculty, students, legislators, and the public, has been that teaching has not been given equal priority with research in academic institutions during the 1980s. It is evident that Hunt is committed to maintaining the quality of the teaching program as a top priority for the School.

During the selection process for the Assistant Dean, an important consideration was that this individual be a role model for a variety of student aspirations. Hunt has served the profession in private practice, public health, dental research, new program development, and, most of all, as a dental educator. The experiences and sensitivities he brings to this position will be key to dealing with the large variety of individuals and responsibilities he will encounter.

The School of Dentistry has been very fortunate to have had its curriculum guided by several talented educators in the past. During the interim, Dr. Ken May provided exceptional leadership as Acting Assistant Dean, in addition to his responsibilities as Director of Admissions and Student Affairs. The outstanding educational tradition of the School of Dentistry will be well served by the addition of Dr. Ron Hunt.

Ken May (L) and Ron Hunt review academic progress reports.

Ronald J. Hunt was appointed Assistant Dean for Academic Affairs at the School of Dentistry effective November 2, 1992. He received his DDS (1973) and MS. Community Dentistry (1983) from the University of Iowa, and specialty certification from the American Board of Dental Public Health (1986). He served as Dental Program Chief for the Mecklenburg County Health Department (1982-83), Program Director for Community Dentistry, Department of Dental Ecology, UNC School of Dentistry (1986-88), Chair, Community Dentistry, University of Iowa (1988-90), and Acting Director of Advanced Dental Education Programs at UNC School of Dentistry (1991-92).

A professor in the Department of Dental Ecology, Hunt is involved in several NIH-NIDR funded research grants investigating oral health and the elderly. He is an active participant in the dental faculty practice, teaches in several predoctoral and graduate dental courses, and chairs several graduate student thesis committees. In his new position, he will chair the Curriculum committees which oversee the predoctoral and graduate dental, dental hygiene, and dental assisting programs of the School of Dentistry.

Hunt and his wife, Maureen, are residents of Durham, NC and are very active participants in all School of Dentistry activities.

PRACTICE OPPORTUNITY PLACEMENT SERVICE

Looking for an associate? Selling your practice? A placement service in the School of Dentistry, will make that information available to dental students. For more information, please contact:

Brenda Rogers, Student Services Manager

919-966-4451

Focus on Students

Another Outstanding Class

The School of Dentistry continues to recruit the very top students. The quality of the 1992 entering class, as measured by the average science grade point average (GPA) and the dental aptitude test (DAT) scores, is among the best since 1982. The average science GPA for the class is 2.99 and the average academic score for the DAT is 17.0.

Applications from North Carolina residents are up 70 percent from 1990. These figures are proof positive of the success of our recruiting efforts over the past two years. The School maintains a firm commitment to increasing the quantity and the quality of the North Carolina applicant pool. North Carolina practitioners also help by encouraging promising young people to consider dentistry as a worthy career option.

The UNC School of Dentistry is proud to be regarded as one of the top dental schools in the nation. The fact that 313 out-of-state applicants compete for 12 positions in each class, underscores the desirability of a dental degree from UNC. Over the past two years, the number of out-of-state applications has increased nearly 16 percent.

The School of Dentistry is grateful for the efforts of all who work with us to recruit the best and the brightest into the dental profession. If you know someone who is interested in dentistry and would like to visit the School, please contact Dr. Ken May, Director of Admissions, at 919-966-4565.

Class Facts

Profile of the Class of 1996

- * 75 students make up the Class of '96.
- * 63 are North Carolina residents; 13 are from out-of-state.
- * 29 women comprise 38.7 percent of the class; the largest number of female students enrolled in a first-year class.
- * This diverse group includes Blacks (4), Asian Pacific Islanders (8), Hispanic (1), and American Indian (1).
- * The students' average age is 23 years.
- * 14 students have a DDS parent, including eight who are Carolina alums.
- * Biology/zoology (41 percent) continues to be the most frequent undergraduate major.
- * Students come from 35 North Carolina counties and attended 14 different North Carolina colleges and universities.

Dental Assisting

The 16 member Dental Assisting Class are all Tar Heels. More than 50 percent are from Orange and Durham Counties. Ranging in age from 19 to 40, the diverse group includes 13 students in the general program plus three in the specialty program. Anyone interested in obtaining information about the Dental Assisting Program should contact Ted Avery at 919-966-2787.

Dental Hygiene

The first year Dental Hygiene Class enrolled 28 students this fall. The class is comprised of 24 in-state students and four out-of-state students. Included are six black students and one native American. Their ages range from 20 to 27. The Program also enrolled three in the post-certificate program. Anyone interested in obtaining information about the Dental Hygiene Program should contact Shannon Mitchell at 919-966-2800.

First year students (L-R) Tressa Shannon, Kapil Anand, Trent Jones, Kristine Yoon, and Ken Benson hit the books during final exams.

Ed Gill

In Their Fathers Footsteps

Eight students in the Class of 1996 have chosen to follow the career path of their alumni parents. Entering this fall are Lisa M. Brown, daughter of Dr. Benjamin W. ('67) and Grace Brown of Raleigh, Scott M. Clinard, son of Dr. Paul M. ('76) and Claudia Clinard of Gastonia, Robert F. Dixon, son of Dr. John H. ('56) and Martha Anne Dixon of Charlotte, T. Gordon Handy, son of Dr. Thomas G. ('66) and Elaine Handy of Winston Salem, Carter W. Lee, son of Dr. Lewis W. ('54) and Jennie Lee, of Wilson, Christopher S. Mooring son of Dr. J. Ray ('69) and Alma Mooring of Olive, Tiffany L. Roberson, daughter of Dr. Theodore M. ('68) and Brenda Roberson of Durham, and James L. White, son of Dr. John F. ('67) and Polly White of Wilmington.

Six other students come from non-alumni dental families. They are Robert K. Aiken, son of Dr. Walter and Flora Aiken of Rockingham, Kristin E. Albright, daughter of Dr. Richard H. and Jane Albright of Lancaster, PA, Curtis W. Dailey, son of Dr. G. Curtis and Marianne Dailey of Hampton, VA, Kyle M. Garlitz, son of Dr. Richard M. and Barbara Garlitz of Hickory, Robert C. Gray, son of Dr. Robert C. and Pruett Gray of Mooresville, and John C. Sheaffer, son of Dr. John J. and Sharon Sheaffer of Ephrata, PA.

The 1992 Summer Research Apprentices. (L-R) K. Huckelberry, J. Lee, S. Long, L. Robbins, and N. Varia.

Minority Program Celebrates 10th Anniversary

The University of North Carolina Dental School proudly celebrated the 10th anniversary of the Minority High School Student Summer Research Apprentice Program in 1992. The purpose of the program is to provide minority high school students with a hands-on experience in various aspects of health related research and to stimulate interest in careers in science. Since it began, the program has provided research apprenticeship opportunities to 51 minority high school students.

Summer apprentices are selected from an applicant pool of area rising senior high school minority students. Selected individuals are assigned to a faculty member mentor from the School's Dental Research Center in a research area of the student's choice.

Students receive a \$2,000 stipend for the seven-week apprenticeship. Funding for the program is made possible by grants from the National Center for Research Resources and the National Institutes of Health with supplemental support for supplies, mentors, and administration from the School.

The students selected for this 10th anniversary year include Kenneth Huckelberry from Durham High School, Jennifer Lee and Ladell Robbins from the North Carolina School of Science and Mathematics, Sumetrice Long from Orange High School, and Nisha Varia from Chapel Hill High School. Kenneth Huckelberry assisted Dr. Patrick Flood, Dr. Marilyn Braddock, and Dr. Manon DeSlauiers, on the "Determination of Elastase Activity in CEM and Jurkat Cell Lines." Jennifer Lee worked with Dr. Greg Essick on the "Spatial and Gender Dependent Variations in Perioral Pinprick Sensitivity." Sumetrice Long's project was "The Effects of Actinobacillus Actinomycetem-comitans on the Birth Weights of Babies." She assisted Dr. Roland Arnold and Dr. Fernando DiMeo. Ladell Robbins was

assigned to Dr. Ikramuddin Aukhil and Ms. Grace Bai and worked on "A Comparison of Protein Purity by Altering the Protocol Used in Extracting Proteins From a Cell Conditional Medium." Nisha Varia's project was "The Determination of the Elastase Gene in Human CEM cells by the PCR Technique." Dr. Patrick Flood and Ms. Salma Hague were her preceptors.

In addition to the student/research/mentor component, a dental student coordinator and a high school science teacher contact person provided additional support. This year's Dental Student Coordinator was Ms. Sherri Williamson, a first-year dental student and a graduate of Spelman College. She helped to acclimate the research apprentices to the dental school and provided enthusiastic insights into benefits of careers in dentistry. The High School Science Teacher contact was Mr. Kenneth Cutler. Cutler teaches high school chemistry at Durham High School and is currently enrolled in the doctoral program in Science Education at North Carolina State University. Cutler served as a liaison between the students and their mentors to ensure that the students got the most from their summer experience.

For a decade this program has sought to increase the number of under-represented minority groups in biomedical research and in the health professions. More than 50 percent of the summer apprentices who have participated in the program have gone on to enroll in graduate and professional degree programs. The high school student apprentices and the faculty mentors give the program high marks as a positive and valuable learning experience.

Roland Arnold, Assistant Dean for Research chats with the parent of a summer apprentice.

SCHOOL

n e w s

Pediatric Dentistry graduate student, Stephanie Chen, helps Katrina Wilkerson learn about brushing on "Dr. Ted. E. Bear."

Pediatric Dentistry Selected for Training Center

The Department of Pediatric Dentistry was recently awarded a five-year, \$708,000 grant to support a Pediatric Dentistry Training Center at the UNC School of Dentistry. The grant was funded by the US Public Health Service's Maternal and Child Health Bureau (MCH) and will establish the UNC-CH center as one of three Centers in the nation and the only Center located in the South or East. William F. Vann, Jr., Professor and Chairman, Department of Pediatric Dentistry is the principal investigator on the grant. Vann will serve as the Center's Director. Michael W. Roberts, Associate Professor and Director of the Department's Graduate Training Program, will serve as the Center's Clinical and Didactic Coordinator.

As a MCH Training Center, the UNC program will emphasize research in areas that position graduates to make an impact on maternal and child health issues and to assume leadership roles -- especially in those areas related to oral health advocacy for children. This will include research in health services, health policy analysis, and oral epidemiology. The research component of the current graduate program is widely recognized as one of its major strengths; accordingly, the Center's resources will be used to diversify the research opportunities while maintaining the current high caliber.

Graduate students training at the Center will benefit from several new training opportunities. For example, residents will train at sites such as the Cherokee Indian Hospital, the Orange County Health Department in Hillsborough, and other North Carolina agencies serving children who live in poverty.

Residents will receive leadership training and complete

public health-child advocacy externships in the Wake County Health Department, and the NC Department of Health and Human Resources. Also planned are legislative externships in Washington, DC with a child health advocate.

Finally, the Center will support the Department of Pediatric Dentistry by serving as a regional and national resource for conferences and symposia that further the goals and objectives of the MCH Bureau.

The Department of Pediatric Dentistry was chosen as the new center's home because of its strong graduate training program. Established in the mid-1950s, the program has long been considered one of the elite and was listed in the January 1992 edition of the periodical, *American Health*, as one of the top pediatric dentistry centers in the United States. The Grant will provide resident stipend supplements to assist in recruiting the best and brightest students to UNC-CH.

Mike McCracken with his first-place table clinic.

Student Takes First Place

Michael McCracken, fourth year D.D.S. student, won first place in the 1992 ADA/Dentsply Student Clinician Program in the Clinical Category at the 133rd Annual Session of the American Dental Association in Orlando, Florida. He was honored at a dinner hosted by Burton C. Borgelt, Dentsply's Chairman and Chief Executive Officer. This was the 34th year Dentsply has sponsored the student table clinic program.

The title of McCracken's presentation was "Demineralization Effects of 10% Carbamide Peroxide." Van Haywood, Associate Professor, Department of Operative Dentistry, was his adviser for the project. McCracken won a cash prize and a trip to Chicago to attend the mid-winter meeting.

Over the past 10 years, six UNC students have taken the top honors in this competition with two first-place, three second-place, and one third-place.

The Hatton Award

Michael Ignelzi, Dentist-Scientist Fellow, was successful in the highly competitive American Association of Dental Research Edward H. Hatton Awards competition. Dr. Ignelzi was selected as the AADR representative in the International Association for Dental Research competition, and was the second place recipient in the postdoctoral category at the IADR's 69th General Session held in Glasgow, Scotland this summer. Ignelzi has accepted a postdoctoral fellowship at the University of Southern California.

Graduate Student Awards

Phophi Kamposiora, Prosthodontics (2nd year), received a \$2,000 G. Randolph and Ann Babcock Fellowship from the UNC School of Dentistry for outstanding achievements in didactic, clinical and research endeavors in July, 1992. Kamposiora's mentor is David Felton, Associate Professor and Chair, Department of Prosthodontics.

Julian Moiseiwitsch, Endodontics (3rd year), received the American Association of Endodontics Award for Poster Clinic session in May, 1992, the Teratology travel award in June, 1992, and the Dentist-Scientist award in July, 1992. Moiseiwitsch's mentor is Jean Lauder, Professor, Cell Biology and Anatomy.

Z. Vance Morgan, Prosthodontics (1st year), received the \$2,000 1992 Hinman Dental Scholarship, the \$500 Samuel P. Sutton Award, the Academy of Dentistry for the Handicapped Award, the Academy of Operative Dentistry Award,

South Carolina Dental Association Award, and the Teledyne Hanav 1992 Best-of-the-Best Prosthodontics Award.

Maureen Quirk, Pediatric Dentistry, (3rd year), received the Sapp Fellowship for academic and clinical excellence for 1992-1993. Quirk is the student representative to the Advanced Education Program Director's Committee for 1992-1993.

Steffan Scherer, Endodontics (2nd year), received a \$1,500 R&E Foundation grant for research conducted with Dr. Offenbacher investigating bone resorption in endodontic lesions.

Heber W. Windley, III, Periodontics (3rd year), received a \$2,000 G. Randolph and Ann Babcock Fellowship award for academic and clinical excellence in July 1992.

D.A.T.E. Graduates

Barbara Stubbs, RDH, MS (D.A.T.E. '92) and **Patricia C. Poole** (UNC DH '87 and D.A.T.E. '92) were invited presenters at the June 30, 1992 Infection Control Symposium in Bethesda, Maryland. The Symposium was sponsored by the Food and Drug Administration. Ms. Stubbs' research, "A Quantitative Biological Assay Evaluating Pre-Sterilization Instrument Cleaning," was conducted during her graduate study in the D.A.T.E. program under the direction of Dr. Jim Crawford. The research was also presented at the annual meeting and scientific session of the Society for Infection Control in Dentistry in March, 1992 in Boston.

Barbara Stubbs

Massachusetts.

Ms. Poole's research was entitled, "Comparison of Ultrasonic Versus Swabbing Methods to Evaluate Handpiece Disinfection." The research

Patricia Poole

completed in 1991, also under the direction of Dr. Jim Crawford, was presented at the March, 1991 meeting of the Society for Infection Control in Dentistry in New Orleans, Louisiana.

Stubbs plans to pursue a career in academics in the near future. Poole's immediate plans are to continue her infection control research with Dr. Crawford. She also plans to continue teaching CPR courses and consulting with local geriatric care facilities in training nurses to deliver proper oral health care to their patients.

Kathy Boyd ('91), David Boyd ('86), and Sharon Gunsett ('86) enjoy "Disney magic" at the UNC reception in Orlando.

Alumni Meet in Orlando

It was Disney magic that attracted nearly 100 alumni and friends to the Alumni Reception at Epcot's Walt Disney World Swan Hotel. The reception was held during the 133rd Annual Session of the American Dental Association. Dean John Stamm and his wife, Carol, welcomed guests, including ADA President Geraldine Morrow and Immediate Past President, Eugene Turono.

New Study

The University of North Carolina has been awarded \$1.8 million by the National Institutes of Health to conduct an "Intergenerational Epidemiologic Study of Periodontitis." Dr. Jane Weintraub, Associate Professor of Dental Ecology and Health Policy and Administration is Principal Investigator. The purpose of this population-based study is to identify and compare both inter- and intra-generational factors that may affect periodontal health. Three generations of families will be asked to participate in this new study: the individuals who have been participating in the ongoing longitudinal Piedmont 65+ dental study of older adults, their spouses, children and grandchildren. A total of about 2,000 dental examinations and personal interviews will be conducted in subjects' homes or worksites within a 400 mile radius of Chapel Hill. This multidisciplinary study involves investigators from Duke University and SUNY Buffalo, as well as UNC Schools

of Dentistry and Public Health. The associations among epidemiologic, medical, social, behavioral, microbiologic, genetic, and environmental factors that may play a role in periodontal disease will be assessed. Studying these multivariate relationships may increase our ability to identify individuals at risk of advanced periodontal disease.

Fall Football Day

The pre-game barbecue on the Knudtson Patio was the highlight of the October 24 Fall Football Day activities. It was a magnificent day, with the temperature in the 70s and a clear, Carolina blue sky. More than 150 alumni, friends, and faculty enjoyed the fun, fellowship and food, before picking up their complimentary game program, stuffing their pockets with peanuts and trekking off to the game. Carolina's 26 to 14 victory over Georgia capped off a perfect day.

The Sullivans prepare to cheer the Tar Heels on to a Fall Football Day victory. L-R David, Gail, Earle ('75), and Jeff.

Ed Baker receives the DF Distinguished Service Award from Dental Foundation President, Greg Chadwick ('74)

The Best of Dentistry

On November 20, the School of Dentistry celebrated the "Best of Dentistry" in North Carolina. The black tie event, hosted by the Dental Foundation of North Carolina and the Dental Alumni Association, was a gala affair with 115 people in attendance. The evening was designed to pay tribute to the collective achievements of dentistry and to the people who have selflessly sacrificed both time and resources to serve the community, the local and district dental societies, specialty organizations, and the School.

In addition, the Dental Foundation and the Dental Alumni Association presented several special awards. The Dental Foundation of North Carolina presented Dr. Edgar D. Baker, with **The Dental Foundation Distinguished Service Award**. The award is given to an individual who has made a significant impact on the dental profession and the School of Dentistry as well as the

improvement of the health and quality of life of the people of North Carolina.

Baker, born in Philadelphia, received his DDS from Virginia Commonwealth University. He joined the Public Health Department in Raleigh and later received his orthodontic training from the University of Michigan. Baker joined Dr. Fred Hale, one of the first orthodontists in North Carolina, in Raleigh in 1940 and has been practicing ever since. He is a Past-President of the North Carolina Dental Society and the Southern Society of Orthodontists. Baker is married to Mary Jerman Crampton Baker. He and his first wife, Miriam Easterling Baker (deceased), have two children who live in Raleigh.

For 19 years, Baker gave a great deal of time to the School as an Associate Clinical Professor in the Orthodontics Department. He has also endowed a fellowship fund in Orthodontics which supports a graduate student each year.

Mr. Bud Tarrson, retired chairman and CEO of the John O. Butler company, was honored with **The John C. Brauer Award**. Named for the first dean of the University of North Carolina School of Dentistry, the award is given by the Dental Alumni Association in recognition of outstanding service to the UNC School of Dentistry. This award was established in 1985 and recognizes a lifetime of service to dentistry. Past recipients of this award include, Dr. Clifford M. Sturdevant, Dr. James Harrell, Sr., Dr. Baxter Sapp, Sr., and Dr. Jim Bawden.

Tarrson's recent \$2 million gift toward the new clinical teaching building will allow the School of Dentistry to move dental education at UNC into the 21st century. Recognized the world over for his contribution to dental care products, Tarrson has dedicated nearly half a century to improving oral health.

Dr. Matthew T. Wood, was presented **The Dental Alumni Association Distinguished Service Award**. This award is given to an individual for exceptional service to the School and the profession of dentistry. The recipient is also recognized for the significant impact she has had on the Dental Alumni Association.

Matt Wood ('58) receives the DAA Distinguished Service Award from Alumni Association President, John Dunn ('64).

Wood graduated from the UNC School of Dentistry 1958 and has been an active participant in School activities ever since. His leadership helped to shape and develop the Dental Alumni Association into the strong and vital association it is today. He has held all of the offices on the Dental Alumni Association's Board of Directors and was DAA President in 1970. From 1977-1980 he chaired the Fall Football Day activities.

A full professor, he is an integral member of the faculty in the Department of Prosthodontics. He was elected to Omicron Kappa Upsilon in 1972 and in 1985 received the prestigious Richard F. Hunt Award for excellence in teaching.

The Dental Alumni Association also bestowed honorary membership on two non-UNC Alumni who have over the years, championed the activities of the School and the Dental Alumni Association. Recipients of honorary membership were Dr. John B. Sowter and Dean John Stamm.

Dental Parents' Phonathon Set

A team of dental parent volunteers will conduct the Annual Parents' Phonathon January 29-30, 1993. Invitations to contribute will be sent in early January. Contributions can be mailed in or pledged when contacted by phone.

Under the leadership of President Jim Murphy, the Parents Committee has met twice and set the goals for the year. Plans are well underway for the 18th Annual Parents Day program in April. With funds raised during the phonathon, the group hopes to secure two casting machines, replace the lab chairs in the Junior/Senior lab, and sponsor a predoctoral summer research fellowship.

The 1993 goal is \$8,000. Monies raised by the parents provide the students with some "extras" that the School would not otherwise be able to provide. As State support continues to decline, your generous support is more important than ever.

The volunteer who calls will also remind parents of the terrific Dental Parents Day scheduled April 2, 1993. An array of workshops will be offered covering topics such as financing dental education, coping with stress in dental school, options and opportunities for the dental graduate and many more. **Mark your calendar - April 2, 1993.** You won't want to miss this special day, planned just for you.

You Are Invited to the

ALUMNI BREAKFAST at Myrtle Beach

Join Alumni and friends of the School for breakfast during the annual meeting of the North Carolina Dental Society.

Saturday, May 22, 1993
7:30 a.m.

Radisson Resort Hotel
Myrtle Beach, NC

A special invitation will be sent this spring.

New Name, New Director, Same Great Service

The Office of Institutional Development is now called the Office of Institutional and Community Relations. The name more clearly reflects the School, University, and community/statewide activities of this unit and helps to distinguish difference between this office and the School's Development Office.

Institutional and Community Relations still offers all of the programs and services you have come to rely on, with one exception. Activities related to Alumni Affairs, AHEC, Continuing Education, Dental Parents, special events, public relations, and publications are still managed through this office. However, matters related to the Dental Foundation of North Carolina are now administered by the Director of Development, located in the Dean's office.

On July 1, 1992, **Sharon K. Grayden** was appointed Director of Institutional and Community Relations. She served as Acting Director since January 1, 1992. Grayden joined the UNC School of Dentistry in May, 1989 as Coordinator of Alumni and Special Events. She earned her RDH, BA (Psychology) and MA (Higher Education) degrees from the University of Minnesota, Minneapolis. Her credentials are exceptionally well-matched for the position she has assumed. For 18 years she has worked

in dental education and has been involved in a broad range of dental experience, including private dental practice as a dental hygienist, dental education, dental research, continuing education, public relations, and publications. In the last six years, she has held positions which required strong leadership, management, and administrative skills.

As the School's Coordinator of Alumni and Special Events, Grayden has been directly responsible for spearheading a critical and diverse facet of the Office of Institutional and Community Relations. As the Director of this office, she will manage those activities and in addition, oversee the AHEC Program, Continuing Dental Education, external relations, and serve as editor of the *North Carolina Dental Review*.

The position vacated by Grayden was filled on November 16, 1992 by **Alice F. Lockhart** who became Coordinator of Alumni, Parents, and Information Services. Lockhart is a graduate of UNC-Chapel Hill, Department of Radio, Television and Motion Pictures with an emphasis in broadcast

Sharon Grayden, Director of Institutional and Community Relations with Alice Lockhart, newly appointed Coordinator of Alumni, Parents, and Information Services.

and print journalism. She has worked as a Communications Consultant/Editorial Assistant for organizations such as Duke University Medical Center, The Pew Program, The Institute of Government and the *American Journal of Physiology*. She brings extensive special events planning and fundraising to this position. As an active community volunteer, she has planned special events for the Duke Children's Classic and orchestrated Triangle Hospice's "Picnic in the Country". She will manage the Dental Alumni activities and the Dental Parents Group and will act as managing editor of the *North Carolina Dental Review*.

A Note of Thanks!

In connection with the Dental School's *Campaign for Excellence* taking place in January 1993, I would like to genuinely thank all those who have volunteered their time to serve on the Campaign Committee. I am proud to acknowledge the Campaign District Directors.

District 1	Dr. James C. Elliott, Jr.	704-254-9578
District 2	Dr. Keith L. Bentley	919-667-2201
District 3	Dr. Stephen B. Mackler	919-379-8377
District 4	Dr. John B. Sowter	919-781-8610
District 5	Dr. W. Kenneth Morgan, Sr.	919-347-1283

If you would like to help the School's *Campaign for Excellence* by serving as a volunteer, please call your District Director or Ms. Wendy McCorkle at (919) 966-2731. Volunteers will be asked to participate in Campaign preparations, including a dinner, on January 8 and 9, 1993. We'd be grateful for your help and think you would enjoy the experience as well. Many thanks!

Jim Harrell, Sr.

Alumni Weekend 1993

Mark your calendars for April 2 and 3 for the 1993 Alumni Weekend. The Alumni Association promises a fun-filled weekend with an opportunity to renew friendships with classmates and colleagues. Class Reunions, the School Picnic and outstanding CE will make a memorable weekend.

Friday morning will be a time to become reacquainted with Chapel Hill. The morning will feature a trolley tour of Historic Chapel Hill and a tour of the renovated Ackland Art Museum.

The Roy B. Harrell Symposium, supported in part by the Roy B. Harrell Fund in the Dental Foundation, will be held Friday afternoon from 1 to 5 p.m.

Each year the Symposium focuses on the practical application of clinical research. The All Alumni Reception will be held immediately following the Symposium.

The Dental Alumni Association will hold its annual meeting of the general membership and the election of officers Saturday morning at 8 a.m. prior to the Shankle Lecture. The Ninth Annual Shankle Lecture, supported by the Tar Heel Endodontic Association and the Robert J. Shankle Lecture Fund in the Dental Foundation, will be held 9 a.m. to 1 p.m. at the Friday Center. Dr. Herbert Schilder will speak on "Cleaning and Shaping of Root Canal Sys-

tems". Watch for the Alumni Weekend brochure announcing the weekend's activities.

Alumni, family, friends and faculty will gather for the annual School of Dentistry Picnic, sponsored by the Class of '96, Saturday afternoon at Storybook Farm. Scheduled from 1 to 5 p.m., the Picnic will feature barbecue, games, and fun for the whole family.

Saturday evening, Classes of 1958, 1963, 1968, 1973, 1978, 1983, and 1988 will hold their five-year reunion dinner and dance at the Sheraton Imperial, RTP. Reunion reservations forms and details on Alumni Weekend will be mailed in January.

STAFF MEMBERS

r e c o g n i z e d

Staff Members Recognized

The following School of Dentistry staff members completed 15 or more years of state service during the 1992-93 fiscal year. Congratulations and thank you!

- * Shirley E. Caraway, Administrative Secretary, Dental Ecology, 25 years
- * Steven R. Deblanc, Dental Technician, Department of Operative Dentistry, 15 years
- * Kathy A. Dodson, Department Manager, Department of Periodontics, 25 years
- * Ann P. Fogleman, Registrar, Academic Affairs, 15 years
- * Terri D. Horton, Dental Assistant Supervisor, Department of Orthodontics, 20 years
- * James E. Lee, Dental Technician Supervisor, Department of Prosthodontics, 20 years

- * Joseph B. Lee, Dental Technician Supervisor, Department of Prosthodontics, 15 years
- * Fay R. Lindsay, Assistant Director, Dental Faculty Practice, 15 years
- * Lela E. Marks, Secretary, Academic Affairs, 15 years.
- * Betty L. Pearson, AHEC Coordinator, Institutional and Community Relations, 15 years
- * Eric P. Plow, Applications Analyst, Computer Services, 20 years
- * Marie W. Roberts, Department Manager, Department of Operative Dentistry, 15 years
- * Susie H. Schwentker, Appointment Clerk, Clinical Services, 20 years
- * Betsy B. Sturdivant, Secretary, Diagnostic Sciences, 20 years
- * Reba P. Sullivan, CE Coordinator, Institutional and Community Relations, 20 years

- * Cynthia P. Thompson, Faculty Secretary, Dental Research Center, 15 years
- * Susan B. Williams, Hospital Dental Coordinator, Dental Ecology, 15 years
- * Steven R. Womble, Dental Equipment Technician, Dental Support Services, 20 years

Twenty-five Years of Service

Shirley Caraway, Administrative Secretary in the Department of Dental Ecology, recently completed 25 years of service to the State. Twenty-three of those years were spent in the UNC School of Dentistry.

Before coming to UNC, Shirley worked two years for the Employment Security Commission in Raleigh. On December 1, 1969, Shirley began working at the Dental School switch

Shirley Caraway

Ed Gill

board. From the switchboard she transferred to the DAU Dispensary, then to the office of Dr. Roger Barton and to the Dental Foundation office. For the past 12 years, Shirley has worked in the Department of Dental Ecology as the Administrative Secretary for the Allied Dental Education Program.

Of all her past positions, Shirley described her present position as her favorite. "I really like working with students," she said.

And the students like her too, as evidenced by the numerous service appreciation awards that the students have given her. According to Joyce Jenzano, Shirley's supervisor, "Shirley is a very loyal and hard worker. She is a very caring person and much appreciated by faculty, staff and students."

Shirley has seen many changes during her 23 years at the Dental School. "I was here before the Dental School moved into Brauer Hall. When I was first here I knew everyone on a first name basis but the school has grown so much that now I know only the ones who have contact with our office," she said.

Kathy Dodson, Department Manager, Periodontics has completed 25 years of service to the State and 13 years to the UNC School of Dentistry. She began work at UNC School of Public Health 25 ago, then, four years later she transferred to the School of Medicine. Thirteen years ago she joined the Periodontics staff.

"Periodontics has been my favorite department. I really enjoy working with all the nice people," Kathy said.

Kathy said everyone made her feel welcome when she came to the Dental School. "Everyone I met in the hall always smiled and said hello, even though I did not know them," she said.

Kathy has seen many changes during her 25 years at the University but noted that computers have made the greatest impact. "Typing correspondence was very time-consuming. A couple of changes could mean retyping a whole letter. Medical work-ups took forever to type," she said.

Dr. David Simpson, Kathy's supervisor, said Kathy is always eager to learn new ways to get the department's work

Kathy Dodson

Ed Gill

done more efficiently. "She's a whiz at the computer. The department appreciates her dedication and service," he said.

Womble Retires

Janie Womble, Administrative Assistant, Pediatric Dentistry, retired September 30, 1992 after 30 years of service to the Dental School. She was honored at a reception October 2, 1992 at the University Sheraton Conference Center.

Janie worked 15 years as a dental assistant in the Faculty Practice before transferring to Endodontics and a career change.

Janie Womble with her family. L-R Her daughter, Karen Long, Janie, her mother, Eva Rigsbee, and her brother and his wife, Burke and Lisa Rigsbee.

"Endodontics became recognized as a specialty and separated from Operative Dentistry. The new department needed secretarial support but did not have funds so I worked both as a secretary and as a dental assistant", she said.

Janie transferred to Pediatrics in 1978 as a Clerk Receptionist, then moved to a Secretary V position in 1981. Her position was upgraded to Administrative Assistant in 1989.

It will surprise no one that Janie is enjoying her retirement. Since leaving the School, she and her husband have travelled to California and Wyoming and visited friends in Asheville. She said she has plans for a winter vacation in Hawaii and a spring fishing trip.

DEVELOPMENT

n e w s

Demeritt Fund Receives Major Boost

George Edwards (DDS '54) and Donald Henson (UNC '45) of Kinston, have made a pledge of \$100,000 to an endowed fund in Dr. William Demeritt's name. Demeritt, who died last year, had served for more than 20 years as Chairman of the Department of Pediatric Dentistry and as Assistant Dean under Dean John C. Brauer. He was well-known for his continuing education courses in children's dentistry which attracted dentists from throughout the east.

In the early 1980s, Edwards and Henson were instrumental in establishing a fund to honor Demeritt. Now they and other Demeritt fans would like to see the fund grow to the level of a \$500,000 professorship. With the pledge from Edwards and Henson, and the possibility of receiving state money through a "matching gift" program, the likelihood of an endowed professorship seems much greater. All funds given to the Demeritt Fund also count towards the Dental School's *Campaign for Excellence* and The Bicentennial *Campaign for Carolina*.

Raynors Support Clinical Teaching Facility

B.C. and Margaret Raynor of Garner, North Carolina, have pledged \$25,000 towards the *Campaign for Excellence*. Their gift, designated to the new clinical teaching facility, will name the area which will house Radiology. Explaining why he and his wife made the gift, Raynor said "I fared pretty well in dentistry and felt like I should give something back to keep it a viable profession."

Raynor received his undergraduate degree from Wake Forest and his DDS

from the UNC School of Dentistry 1967. He serves on the Steering Committee for the *Campaign for Excellence*. Margaret Raynor, Director of Staff Development at Dorothea Dix Hospital in Raleigh, graduated from the UNC School of Nursing in 1967. She was elected to the Dental Foundation Board of Directors in November.

The Faculty/Staff Campaign Unfolds

Ray White, Professor in Oral and Maxillofacial Surgery and former Dean of the School, is organizing the solicitation of faculty, retired faculty, and staff of the Dental School for the *Campaign for Excellence*.

The advanced gift portion of the *Campaign* began in September of 1992 and the results have been outstanding. Of 40 faculty and retired faculty who were asked to make an early pledge, 24 have already done so and many others plan to do so before the end of 1992.

Well over \$100,000 has been raised through this effort and is one of the most successful campaigns among any school on campus. Volunteers who have helped with the advanced gift phase are Drs. Roger Barton, Diane Dilley, Webb McCracken, Jack Shankle, Dan Shugars, Cliff Sturdevant, and Bill Terry.

Dean John Stamm and White are elated by the early success of the School's Faculty/Staff Campaign. White remarked recently, "I hope the fact that our own faculty have contributed so generously to the *Campaign* will encourage others to pledge. I think it says a lot when folks who have received very little in salary increases over the last two years still have the loyalty and dedication to help make this school a great one."

Ray White and Nancy Arellano discuss strategy for January's faculty/staff campaign.

White has recruited Ms. Nancy Arellano, Department Manager in Orthodontics, to help him organize the general phase of the *Campaign* which will begin in January of 1993. Together they are recruiting faculty and staff volunteers to help solicit the 400 people who work in the School.

New Officers and Directors

The Dental Foundation of North Carolina, Inc. announced its new officers and directors of the Board of Trustees at its meeting on November 21. Richard J. Noel (DDS '69), of Henderson was elected President of the Foundation. Other officers include, James G. Kessar (DDS '73) of Hendersonville, President-elect, James M. Walter (MS '78) of Winston-Salem, Vice President, and D. Gregory Chadwick (DDS '74, MS '76) of Charlotte, Past-President.

New board members serving three year terms are James B. Congleton, Jr. (DDS '75, MS '77) of New Bern, Mark E. Hyman (DDS '84) of Greensboro, Michael J. Mayhew (DDS '79, MS '81 and '86) of Boone, Harold W. Mohorn, Jr. (DDS '86) of Greensboro, Margaret Raynor (BSN '67) of Garner, and Junius H. Rose, Jr. (DDS '57) of Kinston.

Sturdevant Fund Off to a Great Start

Initial response to the establishment of the Clifford M. Sturdevant Fund for Clinical Research in Operative Dentistry has been very positive and the School is grateful for these gifts and pledges.

"Dr. Cliff," as he is affectionately known, has dedicated his life to the betterment of clinical dentistry. It has been 25 years since, as chair of Opera-

tive Dentistry, he established one of the first clinical research programs. Virtually every conservative restorative material or technique used in dentistry has been evaluated by this program.

Gifts and pledges to the Sturdevant Fund are welcome and should be directed to the Department of Operative Dentistry. This fund will ensure the legacy of clinical excellence at UNC and support the continuation of the clinical research program created some 25 years ago. All contributions will be credited toward the School's *Campaign for Excellence* and the University's *Bicentennial Campaign for Carolina*.

NEW FACULTY

L'Tanya Bailey, DDS, MS, joined the Department of Orthodontics as an Assistant Professor, in June, 1992. Bailey is a 1981 graduate of Meharry Medical College School of Dentistry. After completing a one-year internship in general dentistry at the Reynolds Comprehensive Health Center in 1982, she entered the

orthodontic graduate program at the UNC School of Dentistry. Bailey completed her orthodontic training in 1985 and joined the faculty that same year. In 1989, Bailey married Bernard Jefferson and moved to Birmingham, Alabama to join the faculty at UAB. She and her husband have two sons, Jordan and Jacob.

George Blakey, DDS, joined the Department of Oral and Maxillofacial Surgery as a Clinical Assistant Professor July 1, 1992. Blakey received his DDS from the Medical College of Virginia in 1987. He completed a General Practice Residency at Michael Reese Hospital in 1988 and an Oral and Maxillofacial Surgical Residency at UNC School of

Dentistry in 1992. Blakey is a member of the American Association of Oral and Maxillofacial Surgeons and the National Society of Oral and Maxillofacial Surgeons. His major research interests are the effects of superior repositioning of the maxilla on nasal flow, resistance and percent breathing.

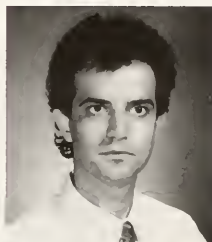

Tamara L. Campbell, DMD, assumed the responsibilities of Visiting Clinical Assistant Professor in the Department of Dental Ecology, on July 1, 1992. Campbell is a member of the attending faculty for the Hospital Dental Clinic at UNC Hospitals. Campbell graduated from the University of Kentucky College of Dentistry in 1989 and com-

pleted a two-year General Practice Residency at the UNC School of Dentistry in 1991. In 1992 she completed her Fellowship with the General Practice Residency Program.

William D. Gates, DDS, MS, is an Assistant Professor in the Department of Prosthodontics. Gates received his DDS from the UNC School of Dentistry in 1989. He completed a graduate training program in prosthodontics at the University of Iowa, receiving a certificate and MS degree in 1991. His graduate research at Iowa focused on the

adhesive strength of a BIS-GMA to tin plated and non-tin plated alloys. Gates left the Department of Dental Oncology at the M.D. Anderson Cancer Center, University of Texas at Houston to join the UNC faculty.

George A. Papavasiliou, DDS, MS, joined the Department of Prosthodontics as Assistant Professor on July 1, 1992. A native of Athens, Greece, Papavasiliou graduated from the University of Athens School of Dentistry in 1989. He received a MS degree and a Certificate in Prosthodontics from the UNC School of Dentistry in 1992. During the last five years, his

research has primarily been in the area of finite element analysis. He has made presentations at meetings of the IADR/AADR and American College of Prosthodontists, and has received the Granger-Pruden Award from the Northeastern Gnathological Society as well as a research award from the North Carolina Section of IADR. He has been published in American as well as international journals.

Katherine M. Kula, DMD, MS, has joint appointments in the Department of Pediatric Dentistry and the Department of Orthodontics. Prior to receiving her dental degree from the University of Kentucky, Kula was the chair of a high school science department in Lexington, Kentucky. She received her pediatric dentistry certificate

and masters degree from the University of Iowa. She taught pediatric dentistry at the University of Maryland for thirteen years and received an American Fund for Dental Health

Faculty Development Award to complete her orthodontic program at Maryland. Last year she chaired a national symposium concerning the evaluation of dental products by the FDA and ADA and their effect on clinicians and patients. Her research interests include the effect of topical fluorides on dental materials, intraoral releasing devices, periodontal problems in children, and development of the craniofacial dental complex. Kula and her husband, Ted, have two children.

Mark S. Scurria, DDS. is a two-time graduate of the University of North Carolina (BA Zoology '85, DDS '89). He joins the Department of Prosthodontics as an Assistant Professor. Scurria completed a general practice residency program at the Audie L. Murphy Memorial Veterans Hospital prior to his prosthodontics training at the Houston Veterans Affairs Medical Center, University of Texas Health Science Center. His research interests include the Bosker Transmandibular Implant for the severely atrophic mandible using digital subtraction radiography and treatment need and outcome assessments to gauge the effectiveness of implant prosthetic reconstructions compared to conventional prosthetic rehabilitation. A North Carolina native, Scurria and his wife, Julie, are happy to be back in Chapel Hill.

Asgeir Sigurdsson, DDS, MS. joined the Department of Endodontics as Visiting Clinical Assistant Professor, July 1992. A native of Reykjavik, Iceland, he received his dental degree from the University of Iceland. After a year in private practice in Iceland, he entered the endodontic graduate program at the UNC School of Dentistry and received his certificate and MS degree in 1992. His research interest involves pain perception in patients with pulpal pain.

Kirt E. Simmons, DDS, PhD. Assistant Professor in the Department of Orthodontics. An orthodontist with a PhD in pharmacology, Simmons was the first individual to complete a combined PhD/DDS program at the University of Texas Health Science Center at San Antonio in 1986. He received his orthodontic training at UNC and, upon completion, accepted a position at Indiana University. Home again, in the School of Dentistry's Orthodontic Department, he is in charge of the craniofacial orthodontic component within the department and will be acting graduate program director after the departure of Peter Sinclair. His research involves the pain associated with orthodontics and the effects of growth hormones on facial and dental growth and development.

Your invitation to the
HINMAN RECEPTION
March 20, 1993

The annual Dental Alumni Association reception held during the Thomas P. Hinman Meeting is scheduled for Saturday, March 20, 1993. Plan to meet your UNC friends and colleagues from 5:00 to 7:00 pm at the Comfort Inn Atlanta Downtown. We look forward to seeing you there.

FACULTY

updates

Roland R. Arnold, Professor, Periodontics and Assistant Dean for Research was a key participant in the First International Symposium on Lactoferrin Structure and Function which was held September 19-24, 1992 in Honolulu, Hawaii. Arnold presented an invited lecture on "Bactericidal activity of different forms of lactoferrin." He was also the keynote speaker for the 9th International Conference on Periodontal Research in Osaka, Japan, September 23-26, 1992. The conference focused on "Pathogenic features of host responses and their use in diagnostic strategy."

James W. Bawden, Alumni Distinguished Professor of Pediatric Dentistry, has been awarded a Kenan Leave for collaborative research at the University of Lund, Sweden, during the 1992-93 academic year. He also is a recipient of the prestigious Fogarty Senior Fellowship award for his research activities during this period. Bawden is Principal Investigator for the School of Dentistry's Dentist-Scientist Fellowship Program.

Stephen C. Bayne, was promoted to the rank of Professor, September 1, 1992. Bayne is a member of the Department of Operative Dentistry and Section Head for Dental Materials. In May he was named Editorial Editor for *Dental*

Materials journal. He is also a member of the AADS/AADR/IADR Joint Ventures Committee whose task is to investigate the potential for combining future efforts of these organizations.

Claude W. Drake, Associate Professor, Diagnostic Sciences, presented "Three-Year Tooth Loss Among Older Adults in North Carolina," at the International Association for Dental Research in Glasgow, Scotland, July, 1992.

Van B. Haywood, Associate Professor, Operative Dentistry, moved from the Department of Prosthodontics to the Department of Operative Dentistry on July 1, 1992.

Harald O. Heymann, Chair, Operative Dentistry, lectured and participated in the International Symposium on Dentin Adhesion at La Costa, CA on June 10, 1992. On September 16, 1992 he lectured at the Turner Dental School, University of Manchester, England and on September 17, 1992 he was the keynote speaker to the British Association of Conservative Dentistry, Manchester, England, speaking on "Future Trends in Operative Dentistry Education."

Robert P. Kusy, Professor, Orthodontic/Dental Research, received notification in September that the preliminary patent search for the application entitled, "Synthesis of Aminated Poly Chlorides by Controlled Pyrolysis of Piperazine" was positive. The patentability investigation may result in three patents. His next step is to find an industrial client who will partner with UNC-CH and the School in this endeavor.

John B. Ludlow, Assistant Professor, Diagnostic Sciences, was elected Chairman of the Oral Maxillofacial

Radiology Section of the American Association of Dental Schools for 1992-1993.

William M. Maixner, was promoted to Associate Professor October 1, 1992. Dr. Maixner is a faculty member in the Department Endodontics.

Suellen H. McCauley, Clinical Services, became Service Dentist for the Student Clinics in June, 1992. McCauley is a 1990 graduate of the UNC School of Dentistry.

Steven Offenbacher, Associate Professor of Periodontics, served as a keynote speaker for the 9th International Conference on Periodontal Research in Osaka, Japan, September 23-26, 1992. The conference focused on "Pathogenic features of host responses and their use in diagnostic strategy."

Robert P. Rogers, Assistant Professor, Diagnostic Sciences, continues his research project on anti-cancer experimental approach involving recombinant proteins targeting B lymphocytes.

Ronald P. Strauss, Professor, Dental Ecology, was elected Vice President Elect of American Cleft Palate-Craniofacial Association May 29, 1992 in Portland, Oregon.

Bill C. Terry, Lorenz Professor, Oral Maxillofacial Surgery, was selected as the 1993 recipient of the Outstanding Alumnus Award of the University of Tennessee College of Dentistry. He will accept it on February 26, 1993 in Memphis, Tennessee.

J. Timothy Wright, Associate Professor of Pediatric Dentistry, has assumed administrative responsibilities for the DSA Program in Jim Bawden's absence.

ALUMNI Notes

1954

Gene L. Reese - served the past two years on the Boone City Council and five years on the Board of Adjustments.

Alan L. Stoddard - has retired from general practice. He is a retired member of the Board of Directors of NationsBank. He has eight grandchildren and one on the way.

1958

Jerry O. Jernigan - has been appointed to be the Regional ECK Spiritual Aide (RESA) for the North Carolina Satsang Society, Inc., a chartered affiliate of ECKANKAR, the Church of the Light and Sound of God.

1959

Jan C. Nibbelink - changed his entire life style. He sold his practice, retired from dentistry, acquired a real estate license, and is selling land in Florida. Make him an offer!

1964

T. Joseph Horton - is enjoying practice and life in general. Twenty-seven years of hunting deer in Halifax County has spawned a side business "Deer Cross Supplies" for him. He supplies hunters nation-wide with cedar and cover seats as well as other items. He also enjoys wood working and hobby welding.

George T. Ward - purchased a practice in Tarboro, NC and moved there in September. He has retired from the USPHS after 28 years and is glad to be back in North Carolina. His oldest son, George, is a second year student at UNC-School of Dentistry this year and his youngest son will graduate from UNC in 1993.

1966

Thomas G. Handy - has son, Gordon, in the first year class at UNC School of Dentistry.

Carle W. Mason - received a fellowship from the American College of Dentists in 1991 and served as Chairman for the Board of Trustees for the North Carolina Dental Society 1991-1992.

1967

Gene M. Shuford - son, Scott, was promoted to Region Training Manager

with Merck Pharmaceuticals, son, Wynn, is a second year law student at Vanderbilt and is a full scholarship recipient-Wade Scholar, and son, Mac, a NROTC scholar recipient, graduated May, 1992 from UNC-CH and was accepted for flight school.

William R. Price - traveled with his family to Europe in June, 1992 to retrace their travels from 20 years ago when they were stationed in Germany with the Army. In July he merged practices with Douglas M. Young ('58) in Winston-Salem.

1971

Raymond S. Garrison, Jr. - has been named chairman of the Department of Dentistry at the Bowman Gray School of Medicine. He has been acting chairman since 1989.

1972

Grady R. Nelson - (MSPros '72) was president of UOP Dental Alumni Association from 1989-1991.

1973

Lawrence S. Seitlin - moved to new location on East Blvd. in Charlotte in December, 1992. His daughter, Amy, is a senior at UNC Chapel Hill and daughter, Sherry, a sophomore at UNC Chapel Hill. Larry has run in 20 marathons since 1978.

1977

Roger A. Briggs - and wife, Beth, began making yearly dental missionary trips into Guatemala in 1985. In December, 1991, they sold their practice, and with their four children, enrolled at Christ for the Nations Institute in Dallas, Texas. Roger and Beth hope to work full time in Central America by 1994.

1979

Henry M. Best, III - married Anita in August, 1990. They had first child in November, 1991, Rachel Lane. He recently returned from second annual missionary trip to Ahuwas, Honduras, where he extracted over 400 teeth in five days. His main hobby, next to parenting, is surfing. He plans his fourth annual surfing trip to Rincon, Puerto Rico in December.

F. Lee Templeton - is Lt. Colonel in the US Air Force and is stationed near Tokyo, Japan at Yokota Air Force Base. He married Anne C. Templeton 18 years ago and has two children, Matt, 12, and Erin, 9.

Valerie Wynne-Hall

Valerie Wynne-Hall - was named the Old North State's 1991-92 Dentist of the Year. She is the 1992-93 President of the Old North State Society and will be the featured speaker at the Student National Dental Association's 1993 Alumni/Senior banquet in April.

1981

John R. Kalmar - is a new faculty member at the Eastman Dental Center as a senior research and clinical associate. His secondary appointments are in the departments of pathology and laboratory medicine and clinical dentistry at the University of Rochester.

1983

Franklin William Taylor, III - is a diplomate of American Board of Pediatric Dentistry and President of Hendersonville Area Chamber of Commerce.

Catherine D. Nelson (DH) - has two daughters, Mary Catherine and Anna Blair. Catherine is a public health dental hygienist in Martin and Edgecombe Counties. She received her masters in public administration in 1991-92 and is President of the UNC DH Alumni Association.

1984

James E. Buckthal - married Amy Donald in January, 1992.

1985

Edward V. Hickman - and wife, Dede, announce the birth of their son, Zachary Edward Russell, born July 3, 1992. The Hickmans also have a daughter, Madison Dandridge, born July 19, 1989. Ed is very happy in his new office building which he completed in August of 1991.

1986

Emmett S. Ackerman, Jr. - married Kaja Lynn Saunders of Bunn, NC. Emmett's daughter, Ashley, by a former marriage, was flower girl. Kaja and Emmett honeymooned in Key West and Nassau. In January 1992 Emmett relocated his practice to 2401 Capital Blvd. with Darwin W. McCaffety ('59).

Philip F. Jiamachello - is currently on the Executive Board of the American Red Cross for the Cleveland County Chapter. He is also the Chairman of St. Mary's Pastoral Council. His wife, Sylvia, is working at the Birthplace at Gaston Memorial Hospital.

1987

Sarah C. Shoaf - is an instructor at the Bowman Gray School of Medicine, Wake Forest University. She will be involved in clinical orthodontics, teaching in the medical school and GPR, doing research and be a member of the craniofacial anomaly treatment team. In June, 1992 she completed her MS in Biochemistry/Genetics at the University of Rochester and received an orthodontic certificate at Eastman Dental Center. Sarah will marry Alan Miller, a photographer, on February 13, 1993.

Gary M. Starr - is living and practicing orthodontics in Matthews, NC. In December 1991, he and his wife, Teresa, had their first child, Michael Brian.

Samuel Zwetchkenbaum - returned to Rhode Island after completing a Post-Graduate Prosthodontics program at New Jersey Dental School. He will be practicing in Rhode Island and teaching in the complete dentures course at Harvard's dental school.

1988

John H. Miller - formed a partnership in July, 92 with Dr. Samuel E. Blanton. His wife, Elizabeth Thomas Miller, graduated from UNC Law School in May, 1988 and is a practicing attorney in Rutherfordton. They have one two-year-old son, Thomas.

Steve Slobodski - is opening a second location in Brooklyn, NY and has completed a 22-week course in TMJ. He is still single and happy.

1990

Randy G. Fussell - is currently practicing with UNC graduates Richard H. Evans, Jr. ('66) and William C. Lee, Jr. ('80). Randy also has a clinical preceptor appointment with the Department of Family Medicine, ECU School of Medicine and an appointment as a member of the consulting surgical staff with Pitt County Memorial Hospital. **Athanasios J. Kleitches** - received an advanced education certificate in endodontics from the Louisiana State University School of Dentistry and an American Association for Dental Research Award from the New Orleans section of the association in July.

Cynthia Bolton Watkins - married Joe Watkins in November, 1990. She purchased a practice in Reidsville, NC in July 1991. The Watkins celebrated the birth of their first child, Sara Beth Watkins, in October, 1991.

Patricia P. Wilson - purchased a practice in Maitland, Florida.

Dag Zapatero - has a new daughter, Caroline Rein Zapatero, born on April 6, 1992.

1991

Samantha Callahan - completed a GPR program June 30, 1992 from Emory University School of Postgraduate Dentistry. She passed the Georgia Boards in July, 1992 and is now practicing dentistry in a group practice. **Joseph N. Catlett, Jr.** - opened a new practice in Fayetteville in June, 1992. Twin daughters, Christine and Cory, were born in April, 1992.

Thomas S. Clifton - has practiced for one year in Durham, NC. He and Susan purchased their first home in North Durham. They invite everyone to come by and visit.

John W. McNeill - has been practicing as an Army dentist at Ft. Bragg, NC. He goes to the field every few months to provide emergency dental care for the 82nd Airborne Division. He recently completed rotations through Oral Surgery and Endodontics.

Paresh Naran - completed GPR in June, 1992. He is an associate in private with Dinah Vice ('84) in Chapel Hill. In April, 1992, Paresh became engaged to Judy Palmer.

Jeffery L. Rumley - married Anne Stuart Davis of Virginia on May 30, 1992. They traveled to Aruba on their honeymoon. Jeff extends an open invitation to his classmates who would like to relax on the Pamlico River for a weekend.

Ernest B. Ward, III - and wife, Kayla, were expecting twins in November, 1992.

Jean Woods - is practicing with B. D. Smith ('78) in Gastonia, NC. She traveled to Nigeria in September, 1992.

1992

Leslie Deaton Acree - married Lee Acree on October 17, 1992. She is currently employed with L. B. Henderson.

Robin C. Edwards - married Issac W. Whitfield of Kinston, NC on October 17, 1992.

Jamel D. Odeh - is currently in associateship in Dunn, NC with Townsend and Townsend.

Michael J. Ryan - married May 30, 1992, wife's name is Cindy. He is currently in the General Practice Residency program at the Medical Center of Delaware. Next year he hopes to practice in Delaware.

Hollie Blevins Stack - married Patrick Stack July 25, 1992 in Charlotte, NC. They honeymooned in St. John, U.S.V.I. While there, they went scuba diving and met a dentist from Germany.

Robert Stancill - completed specialty training in Endodontics in June, 1992. He received his Masters degree in Oral Biology in July, 1992 and served as a Clinical Instructor in the Department of Endodontics from June until September, 1992. Also, in September, 1992 he became an associate of Nona Breeland ('87) in Chapel Hill.

Alan B. Sykes - is busy with the AEGD program at the Health Science Center at San Antonio. He completed a month rotation at a migrant clinic on the Texas-Mexico border. Alan says he is enjoying the sights, sounds and tastes of Texas! His new hobby is chasing Armadillos! **Moses Watson, III** - opened Watson Family Dentistry on September 1, 1992 in Laurinburg, NC. Moses will marry Pamela Johnson of Naperville, IL on April 24, 1993.

Britt Visser - is enjoying a two-year residency in Orthodontics at the Medical College of Virginia. He would like for any classmate who has not contacted him to do so. He would like to know their address, phone number and their latest news.

Hope Xenakis - associated with Dr. Ken Hornowski ('79) in August, 1992.

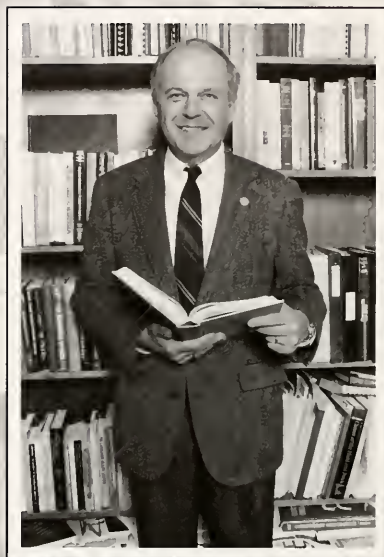

Angela J. Prentice, DDS '85, died August 20, 1992 after a long illness. She was a native of England and graduated from the University of Edinburgh and the University of Strathclyde in Scotland. Dr. Prentice is survived by her husband, Derek Prentice; a daughter, JoAnna Prentice; and two sons, Neil Prentice and Owen Prentice.

IN MEMORIAM

Kenan Paige Goodwin, BSDH '91 died July 13, 1992. She is survived by her parents, Roy Anderson and Mary Hewitt Goodwin; her grandmothers, Betty Hewitt and Janice Taylor; her brothers, Jeff Goodwin and Jonathan Preston

James D. LeGwin, Jr., DDS '59 died December 30, 1991.

"I am enormously grateful to all those who gave so generously to the UNC School of Dentistry during the 1991/92 fiscal year. We had a record year, topping \$1 million in private contributions to all areas of the school. Just as important as the dollars, is the much appreciated good will that your generosity brings.

Thank you most sincerely."

John W. Stamm

The 1991-1992 Honor Roll of Contributors recognizes gifts received by the School/Dental Foundation in the July 1, 1991-June 30, 1992 fiscal year.

The CHANCELLOR'S CLUB, a University giving club, recognizes contributors of \$2,000 or more to the School of Dentistry.
